(a) The Contractor shall submit annually a NASA Form (NF) 1018, NASA Property in the Custody of Contractors, in accordance with this clause, the instructions on the form and NFS subpart 1845.71, and any supplemental instructions for the current reporting period issued by NASA.

(b)(1) Subcontractor use of NF 1018 is not required by this clause; however, the Contractor shall include data on property in the possession of subcontractors in the annual NF 1018.

(2) The Contractor shall mail the original signed NF 1018 directly to the Goddard Space Flight Center (GSFC), General Accounting Department, General Ledger Section, Code 157, Greenbelt, MD 20771, Finance, unless the Contractor uses the NF 1018 Electronic Submission System (NESS) for report preparation and submission.

(3) One copy shall be submitted (through the Department of Defense (DOD) Property Administrator if contract administration has been delegated to DOD) to the following address: Goddard Space Flight Center, Supply and Equipment Management Branch, Code 273, Greenbelt, MD 20771, unless the Contractor uses the NF 1018 Electronic Submission System (NESS) for report preparation and submission.

(c)(1) The annual reporting period shall be from October 1 of each year through September 30 of the following year. The report shall be submitted in time to be received by October 15. accordingly. In addition, differences between the estimated cost and actual cost must be adjusted during the next reporting period. Contractors shall have formal policies and procedures, which address the validation of NF 1018 data, including data from subcontractors, and the identification and timely reporting of errors. The objective of this validation is to ensure that information reported is accurate and in compliance with the NASA FAR Supplement. If errors are discovered on NF 1018 after submission, the contractor shall contact the cognizant NASA Center Industrial Property Officer (IPO) within 30 days after discovery of the error to discuss corrective action.

(2) The Contracting Officer may, in NASA's interest, withhold payment until a reserve not exceeding \$25,000 or 5 percent of the amount of the contract, whichever is less, has been set aside, if the Contractor fails to submit annual NF 1018 reports in accordance with NFS subpart 1845.71 and any supplemental instructions for the current reporting period issued by NASA. Such reserve shall be withheld until the Contracting Officer has determined that NASA has received the required reports. The withholding of any amount or the subsequent payment thereof shall not be construed as a waiver of any Government right.

(d) A final report shall be submitted within 30 days after disposition of all property subject to reporting when the contract performance period is complete in accordance with paragraph (b)(1) through (3) of this clause.

However, the contractor shall provide sufficient on-site personnel to perform round-the-clock requirements of critical work already in process, unless otherwise instructed by the Contracting Officer or authorized representative.

(d) Whenever administrative leave is granted to Contractor personnel pursuant to paragraph (c) of this clause, it shall be without loss to the Contractor. The cost of salaries and wages to the Contractor for the period of any such excused absence shall be a reimbursable item of cost under this contract for employees in accordance with the Contractor's established accounting policy.

The Contractor must apply for permanent NASA/GSFC PIV cards for those contract employees who will be employed by the Contractor onsite for at least six months. The GSFC Security Division will consider permanent PIV cards for other employees of the Contractor on a case-by-case basis, such as employees that are not resident onsite, but must frequently visit. In the future, upon written notice from the Contracting Officer, the Contractor shall follow Steps 1 through 7 in Attachment N for each offsite contract employee (prime and subcontractor) who require remote access to a NASA information system for contract performance.

(b) The Contractor shall notify the GSFC Security Division, Code 240, Attention: PIV Manager, and the Contracting Officer’s Representative (COR) of the contractor’s designated PIV Requester within 15 calendar days after award of this contract. The Contractor may contact the PIV Manager, Tel 301-286-2306 for assistance regarding the PIV system.

(c) Each contract employee shall provide to the Contractor’s designated PIV Requester the basic identifying information required for a PIV Request to be initiated in the PIV System. The PIV Request must be approved by the PIV Sponsor (COR or the Contracting Officer). The COR will resolve any housing or access issues, and review the request for accuracy and completeness. Requests that are approved by the PIV Sponsor will be forwarded to the GSFC Security Division, Code 240, PIV Authorization, Badge enrollment, and Badge issuance.

(d) The Contractor shall submit an annotated PIV Report each month. The GSFC PIV Manager will furnish a PIV print-out to the Contractor no later than the end of each month. The Contractor shall annotate this provided report monthly to correct and update the information as follows:

- (1) Draw a line through the names of employees who are no longer employed by the contractor or that no longer work onsite under the contract, and;
- (2) Make handwritten changes to any other incorrect data.

The annotated PIV Report shall be separately submitted to the GSFC Security Division, Code 240, Attention: PIV Manager, and to the COR by the 10th calendar day of the month.

For the final PIV Report under the contract, the GSFC PIV Manager will furnish a PIV print-out to the Contractor no later than two weeks prior to the end of the contract. The Contractor shall submit its

The Contractor shall review the list and redline it as necessary to reflect its employees requiring PIV cards. The redlined list shall be provided the GSFC Security Division within 30 days after the start of the contract.

(e) The Contractor shall ensure that all personnel who have NASA/GSFC issued PIV cards, keys or other property who leave its employment or that no longer work onsite, process out through the GSFC Security Division, Code 240. Employees must return all GSFC issued identification and any Government property no later than the last day of their employment or the last day they work onsite under this contract. The Contractor shall establish appropriate procedures and controls to ensure this is accomplished. Failure to comply may result in the exercise of Government rights to limit and control access to Government premises, including denial of access and invalidation of NASA issued PIV cards and identification.

CONTRACT CLAUSES

offers, except-

(i) Offers from HUBZone small business concerns that have not waived the evaluation preference;  
and

(ii) Otherwise successful offers from small business concerns.

(2) The factor of 10 percent shall be applied on a line item basis or to any group of items on which award may be made. Other evaluation factors described in the solicitation shall be applied before application of the factor.

(3) A concern that is both a HUBZone small business concern and a small disadvantaged business concern will receive the benefit of both the HUBZone small business price evaluation preference and the small disadvantaged business price evaluation adjustment (see FAR clause 52.219-23). Each applicable price evaluation preference or adjustment shall be calculated independently against an offeror's base offer. These individual preference amounts shall be added together to arrive at the total evaluated price for that offer.

(4) When the two highest rated offerors are a HUBZone small business concern and a large business, and the evaluated offer of the HUBZone small business concern is equal to the evaluated offer of the large business after considering the price evaluation preference, award will be made to the HUBZone small business concern.

(c) *Waiver of evaluation preference.* A HUBZone small business concern may elect to waive the evaluation preference, in which case the factor will be added to its offer for evaluation purposes. The agreements in paragraphs (d) and (e) of this clause do not apply if the offeror has waived the evaluation preference.

[ ] Offeror elects to waive the evaluation preference.

(d) *Agreement.* A HUBZone small business concern agrees that in the performance of the contract, in the case of a contract for-

(ii) At least 50 percent of the cost of the contract performance to be incurred for personnel will be spent on the prime contractor's employees or on a combination of the prime contractor's employees and employees of HUBZone small business concern subcontractors;

(iii) No more than 50 percent of the cost of contract performance to be incurred for personnel will be subcontracted to concerns that are not HUBZone small business concerns; or

(4) Construction by special trade contractors. (i) At least 25 percent of the cost of contract performance to be incurred for personnel will be spent on the prime contractor's employees;

(ii) At least 50 percent of the cost of the contract performance to be incurred for personnel will be spent on the prime contractor's employees or on a combination of the prime contractor's employees and employees of HUBZone small business concern subcontractors;

SECTION I OF NNG14490137R  
CONTRACT CLAUSES

(iii) No more than 50 percent of the cost of contract performance to be incurred for personnel will be subcontracted to concerns that are not HUBZone small business concerns.

(e) A HUBZone joint venture agrees that the aggregate of the HUBZone small business concerns to the joint venture, not each concern separately, will perform the applicable percentage of work requirements.

(f)(1) When the total value of the contract exceeds \$25,000, a HUBZone small business concern non-manufacturer agrees to furnish in performing this contract only end items manufactured or produced by HUBZone small business concern manufacturers.

(2) When the total value of the contract is equal to or less than \$25,000, a HUBZone small business concern non-manufacturer may provide end items manufactured by other than a HUBZone small business concern manufacturer provided the end items are produced or manufactured in the United States.

(3) Paragraphs (f)(1) and (f)(2) of this section do not apply in connection with construction or service contracts.

(g) Notice. The HUBZone small business offeror acknowledges that a prospective HUBZone awardee must be a HUBZone small business concern at the time of award of this contract. The HUBZone offeror shall provide the Contracting Officer a copy of the notice required by 13 CFR 126.501 if material changes occur before contract award that could affect its HUBZone eligibility. If the apparently successful HUBZone offeror is not a HUBZone small business concern at the time of award of this contract, the Contracting Officer will proceed to award to the next otherwise successful HUBZone small business concern or other offeror.

(End of clause)

“Individual contract plan” means a subcontracting plan that covers the entire contract period (including option periods), applies to a specific contract, and has goals that are based on the offeror’s planned subcontracting in support of the specific contract except that indirect costs incurred for common or joint purposes may be allocated on a prorated basis to the contract.

“Master plan” means a subcontracting plan that contains all the required elements of an individual contract plan, except goals, and may be incorporated into individual contract plans, provided the master plan has been approved.

The plan shall be included in and made a part of the resultant contract. The subcontracting plan shall be negotiated within the time specified by the Contracting Officer. In accordance with 43 U.S.C. 1626:

(i) Subcontracts awarded to an ANC or Indian tribe shall be counted towards the subcontracting goals for small business and small disadvantaged business (SDB) concerns, regardless of the size or Small Business Administration certification status of the ANC or Indian tribe.

(ii) Where one or more subcontractors are in the subcontract tier between the prime contractor and the ANC or Indian tribe, the ANC or Indian tribe shall designate the appropriate contractor(s) to count the subcontract towards its small business and small disadvantaged business subcontracting goals.

(A) In most cases, the appropriate Contractor is the Contractor that awarded the subcontract to the ANC or Indian tribe.

(B) If the ANC or Indian tribe designates more than one Contractor to count the subcontract toward its goals, the ANC or Indian tribe shall designate only a portion of the total subcontract award to each Contractor. The sum of the amounts designated to various Contractors cannot exceed the total value of the subcontract.

(C) The ANC or Indian tribe shall give a copy of the written designation to the Contracting Officer, the prime Contractor, and the subcontractors in between the prime Contractor and the ANC or Indian tribe within 30 days of the date of the subcontract award.

A firm may rely on the information contained in CCR as an accurate representation of a concern's size and ownership characteristics for the purposes of maintaining a small, veteran-owned small, service-disabled veteran-owned small, HUBZone small, small disadvantaged, and women-owned small business source list. Use of CCR as its source list does not relieve a firm of its responsibilities (e.g., outreach, assistance, counseling, or publicizing subcontracting opportunities) in this clause.

SECTION I OF NNG14490137R  
CONTRACT CLAUSES

(e) In order to effectively implement this plan to the extent consistent with efficient contract performance, the Contractor shall perform the following functions:

(1) Assist small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns by arranging solicitations, time for the preparation of bids, quantities, specifications, and delivery schedules so as to facilitate the participation by such concerns. Where the Contractor's lists of potential small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business subcontractors are excessively long, reasonable effort shall be made to give all such small business concerns an opportunity to compete over a period of time.

(2) Provide adequate and timely consideration of the potentialities of small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns in all "make-or-buy" decisions.

(3) Counsel and discuss subcontracting opportunities with representatives of small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business firms.

(4) Confirm that a subcontractor representing itself as a HUBZone small business concern is identified as a certified HUBZone small business concern by accessing the Central Contractor Registration (CCR) database or by contacting SBA.

(5) Provide notice to subcontractors concerning penalties and remedies for misrepresentations of business status as small, veteran-owned small business, HUBZone small, small disadvantaged or women-owned small business for the purpose of obtaining a subcontract that is to be included as part or all of a goal contained in the Contractor's subcontracting plan.

(6) For all competitive subcontracts over the simplified acquisition threshold in which a small business concern received a small business preference, upon determination of the successful subcontract offeror, the Contractor must inform each unsuccessful small business subcontract offeror in writing of the name and location of the apparent successful offeror prior to award of the contract.

(f) A master plan on a plant or division-wide basis that contains all the elements required by paragraph (d) of this clause, except goals, may be incorporated by reference as a part of the subcontracting plan required of the offeror by this clause; provided --

(1) The master plan has been approved;

(2) The offeror ensures that the master plan is updated as necessary and provides copies of the approved master plan, including evidence of its approval, to the Contracting Officer; and

(3) Goals and any deviations from the master plan deemed necessary by the Contracting Officer to satisfy the requirements of this contract are set forth in the individual subcontracting plan.

(g) A commercial plan is the preferred type of subcontracting plan for contractors furnishing commercial items. The commercial plan shall relate to the offeror's planned subcontracting generally, for both commercial and Government business, rather than solely to the Government contract. Once the Contractor's commercial plan has been approved, the Government will not require another subcontracting plan from the same Contractor while the plan remains in effect, as long as the product or service being provided by the Contractor continues to meet the definition of a commercial item. A contractor with a commercial plan shall comply with the reporting requirements stated in paragraph (d)(10) of this clause by submitting one SSR in eSRS for all contracts covered by its commercial plan. This report shall be

SECTION I OF NNG14490137R  
CONTRACT CLAUSES

acknowledged or rejected in eSRS by the Contracting Officer who approved the plan. This report shall be submitted within 30 days after the end of the Government's fiscal year.

(h) Prior compliance of the offeror with other such subcontracting plans under previous contracts will be considered by the Contracting Officer in determining the responsibility of the offeror for award of the contract.

(i) A contract may have no more than one plan. When a modification meets the criteria in 19.702 for a plan, or an option is exercised, the goals associated with the modification or option shall be added to those in the existing subcontract plan.

(j) Subcontracting plans are not required from subcontractors when the prime contract contains the clause at 52.212-5, Contract Terms and Conditions Required to Implement Statutes or Executive Orders—Commercial Items, or when the subcontractor provides a commercial item subject to the clause at 52.244-6, Subcontracts for Commercial Items, under a prime contract.

(k) The failure of the Contractor or subcontractor to comply in good faith with—

(1) The clause of this contract entitled "Utilization Of Small Business Concerns;" or

(2) An approved plan required by this clause, shall be a material breach of the contract.

(l) The Contractor shall submit ISRs and SSRs using the web-based eSRS at <http://www.esrs.gov>. Purchases from a corporation, company, or subdivision that is an affiliate of the prime Contractor or subcontractor are not included in these reports. Subcontract award data reported by prime Contractors and subcontractors shall be limited to awards made to their immediate next-tier subcontractors. Credit cannot be taken for awards made to lower tier subcontractors unless the Contractor or subcontractor has been designated to receive a small business or small disadvantaged business credit from an ANC or Indian tribe. Only subcontracts involving performance in the United States or its outlying areas should be included in these reports with the exception of subcontracts under a contract awarded by the State Department or any other agency that has statutory or regulatory authority to require subcontracting plans for subcontracts performed outside the United States and its outlying areas.

(1) ISR. This report is not required for commercial plans. The report is required for each contract containing an individual subcontract plan.

(i) The report shall be submitted semi-annually during contract performance for the periods ending March 31 and September 30. A report is also required for each contract within 30 days of contract completion. Reports are due 30 days after the close of each reporting period, unless otherwise directed by the Contracting Officer. Reports are required when due, regardless of whether there has been any subcontracting activity since the inception of the contract or the previous reporting period.

(ii) When a subcontracting plan contains separate goals for the basic contract and each option, as prescribed by FAR 19.704(c), the dollar goal inserted on this report shall be the sum of the base period through the current option; for example, for a report submitted after the second option is exercised, the dollar goal would be the sum of the goals for the basic contract, the first option, and the second option.

(iii) The authority to acknowledge receipt or reject the ISR resides—

(A) In the case of the prime Contractor, with the Contracting Officer; and

(B) In the case of a subcontract with a subcontracting plan, with the entity that awarded the subcontract.

SECTION I OF NNG14490137R  
CONTRACT CLAUSES

(2) SSR.

(i) Reports submitted under individual contract plans—

(A) This report encompasses all subcontracting under prime contracts and subcontracts with the awarding agency, regardless of the dollar value of the subcontracts.

(B) The report may be submitted on a corporate, company or subdivision (e.g. plant or division operating as a separate profit center) basis, unless otherwise directed by the agency.

(C) If a prime Contractor and/or subcontractor is performing work for more than one executive agency, a separate report shall be submitted to each executive agency covering only that agency's contracts, provided at least one of that agency's contracts is over \$650,000 (over \$1.5 million for construction of a public facility) and contains a subcontracting plan. For DoD, a consolidated report shall be submitted for all contracts awarded by military departments/agencies and/or subcontracts awarded by DoD prime Contractors. However, for construction and related maintenance and repair, a separate report shall be submitted for each DoD component.

(D) Except for DoD, the report shall be submitted annually for the twelve month period ending September 30. Reports are due 30 days after the close of each reporting period. For DoD, the report shall be submitted semi-annually for the six months ending March 31 and the twelve months ending September 30.

(E) Subcontract awards that are related to work for more than one executive agency shall be appropriately allocated.

(F) The authority to acknowledge or reject SSRs in eSRS, including SSRs submitted by subcontractors with subcontracting plans, resides with the Government agency awarding the prime contracts unless stated otherwise in the contract.

(ii) Reports submitted under a commercial plan—

(A) The report shall include all subcontract awards under the commercial plan in effect during the Government's fiscal year.

(B) The report shall be submitted annually, within thirty days after the end of the Government's fiscal year.

(C) If a Contractor has a commercial plan and is performing work for more than one executive agency, the Contractor shall specify the percentage of dollars attributable to each agency from which contracts for commercial items were received.

(D) The authority to acknowledge or reject SSRs for commercial plans resides with the Contracting Officer who approved the commercial plan.

(iii) All reports submitted at the close of each fiscal year (both individual and commercial plans) shall include a Year-End Supplementary Report for Small Disadvantaged Businesses. The report shall include subcontract awards, in whole dollars, to small disadvantaged business concerns by North American Industry Classification System (NAICS) Industry Subsector. If the data are not available when the year-end SSR is submitted, the prime Contractor and/or subcontractor shall submit the Year-End Supplementary Report for Small Disadvantaged Businesses within 90 days of submitting the year-end SSR. For a commercial plan, the Contractor may obtain from each of its subcontractors a predominant NAICS Industry Subsector and report all awards to that subcontractor under its predominant NAICS Industry Subsector.

CONTRACT CLAUSES

(End of Clause)

**I.118 52.219-28 Post-Award Small Business Program Rerepresentation. (JUL 2013)**

(a) *Definitions.* As used in this clause-

*Long-term contract* means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

*Small business concern* means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause. Such a concern is "not dominant in its field of operation" when it does not exercise a controlling or major influence on a national basis in a kind of business activity in which a number of business concerns are primarily engaged. In determining whether dominance exists, consideration shall be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity.

(b) If the Contractor represented that it was a small business concern prior to award of this contract, the Contractor shall rerepresent its size status according to paragraph (e) of this clause or, if applicable, paragraph (g) of this clause, upon the occurrence of any of the following:

(1) Within 30 days after execution of a novation agreement or within 30 days after modification of the contract to include this clause, if the novation agreement was executed prior to inclusion of this clause in the contract.

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts-

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code assigned to this contract. The small business size standard corresponding to this NAICS code can be found at <http://www.sba.gov/content/table-small-business-size-standards>.

(d) The small business size standard for a Contractor providing a product which it does not manufacture itself, for a contract other than a construction or service contract, is 500 employees.

(e) Except as provided in paragraph (g) of this clause, the Contractor shall make the rerepresentation required by paragraph (b) of this clause by validating or updating all its representations in the Rerepresentations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting office in writing within the timeframes specified in paragraph (b) of this clause that the data have been validated or updated, and provide the date of the validation or update.

(f) If the Contractor represented that it was other than a small business concern prior to award of this

SECTION I OF NNG14490137R  
CONTRACT CLAUSES

contract, the Contractor may, but is not required to, take the actions required by paragraphs (e) or (g) of this clause.

(g) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

The Contractor represents that it \_\_\_ is, \_\_\_ is not a small business concern under NAICS Code 541330 assigned to contract number [TBD]. (*Contractor to sign and date and insert authorized signer's name and title*).

**I.119 52.222-2 Payment for Overtime Premiums. (JUL 1990)**

(a) The use of overtime is authorized under this contract if the overtime premium does not exceed \$0 or the overtime premium is paid for work-

- (1) Necessary to cope with emergencies such as those resulting from accidents, natural disasters, breakdowns of production equipment, or occasional production bottlenecks of a sporadic nature;
- (2) By indirect-labor employees such as those performing duties in connection with administration, protection, transportation, maintenance, standby plant protection, operation of utilities, or accounting;
- (3) To perform tests, industrial processes, laboratory procedures, loading or unloading of transportation conveyances, and operations in flight or afloat that are continuous in nature and cannot reasonably be interrupted or completed otherwise; or
- (4) That will result in lower overall costs to the Government.

(b) Any request for estimated overtime premiums that exceeds the amount specified above shall include all estimated overtime for contract completion and shall-

- (1) Identify the work unit; *e.g.*, department or section in which the requested overtime will be used, together with present workload, staffing, and other data of the affected unit sufficient to permit the Contracting Officer to evaluate the necessity for the overtime;
- (2) Demonstrate the effect that denial of the request will have on the contract delivery or performance schedule;
- (3) Identify the extent to which approval of overtime would affect the performance or payments in connection with other Government contracts, together with identification of each affected contract; and
- (4) Provide reasons why the required work cannot be performed by using multishift operations or by employing additional personnel.

**I.121 52.222-55 Minimum Wages Under Executive Order 13658. (DEC 2014)**

(a) Definitions. As used in this clause--

"United States" means the 50 states and the District of Columbia.

"Worker"—

(1) Means any person engaged in performing work on, or in connection with, a contract covered by Executive Order 13658, and

(i) Whose wages under such contract are governed by the Fair Labor Standards Act (29 U.S.C. chapter 8), the Service Contract Labor Standards statute (41 U.S.C. chapter 67), or the Wage Rate Requirements (Construction) statute (40 U.S.C. chapter 31, subchapter IV),

(ii) Other than individuals employed in a bona fide executive, administrative, or professional capacity, as those terms are defined in 29 CFR part 541,

(iii) Regardless of the contractual relationship alleged to exist between the individual and the employer.

(2) Includes workers performing on, or in connection with, the contract whose wages are calculated pursuant to special certificates issued under 29 U.S.C. 214(c).

(3) Also includes any person working on, or in connection with, the contract and individually registered in a bona fide apprenticeship or training program registered with the Department of Labor's Employment and Training Administration, Office of Apprenticeship, or with a State Apprenticeship Agency recognized by the Office of Apprenticeship.

(b) Executive Order Minimum Wage rate.

(1) The Contractor shall pay to workers, while performing in the United States, and performing on, or in connection with, this contract, a minimum hourly wage rate of \$10.10 per hour beginning January 1, 2015.

(2) The Contractor shall adjust the minimum wage paid, if necessary, beginning January 1, 2016 and

SECTION I OF NNG14490137R  
CONTRACT CLAUSES

annually thereafter, to meet the Secretary of Labor's annual E.O. minimum wage. The Administrator of the Department of Labor's Wage and Hour Division (the Administrator) will publish annual determinations in the Federal Register no later than 90 days before the effective date of the new E.O. minimum wage rate. The Administrator will also publish the applicable E.O. minimum wage on [www.wdol.gov](http://www.wdol.gov) (or any successor Web site) and on all wage determinations issued under the Service Contract Labor Standards statute or the Wage Rate Requirements (Construction) statute. The applicable published E.O. minimum wage is incorporated by reference into this contract.

(3)(i) The Contractor may request a price adjustment only after the effective date of the new annual E.O. minimum wage determination. Prices will be adjusted only if labor costs increase as a result of an increase in the annual E.O. minimum wage, and for associated labor costs and relevant subcontract costs. Associated labor costs shall include increases or decreases that result from changes in social security and unemployment taxes and workers' compensation insurance, but will not otherwise include any amount for general and administrative costs, overhead, or profit.

(ii) Subcontractors may be entitled to adjustments due to the new minimum wage, pursuant to paragraph (b)(2). Contractors shall consider any subcontractor requests for such price adjustment.

(iii) The Contracting Officer will not adjust the contract price under this clause for any costs other than those identified in paragraph (b)(3)(i) of this clause, and will not provide duplicate price adjustments with any price adjustment under clauses implementing the Service Contract Labor Standards statute or the Wage Rate Requirements (Construction) statute.

(4) The Contractor warrants that the prices in this contract do not include allowance for any contingency to cover increased costs for which adjustment is provided under this clause.

(5) A pay period under this clause may not be longer than semi-monthly, but may be shorter to comply with any applicable law or other requirement under this contract establishing a shorter pay period. Workers shall be paid no later than one pay period following the end of the regular pay period in which such wages were earned or accrued.

(6) The Contractor shall pay, unconditionally to each worker, all wages due free and clear without subsequent rebate or kickback. The Contractor may make deductions that reduce a worker's wages below the E.O. minimum wage rate only if done in accordance with 29 CFR 10.23, Deductions.

(7) The Contractor shall not discharge any part of its minimum wage obligation under this clause by furnishing fringe benefits or, with respect to workers whose wages are governed by the Service Contract Labor Standards statute, the cash equivalent thereof.

(8) Nothing in this clause shall excuse the Contractor from compliance with any applicable Federal or State prevailing wage law or any applicable law or municipal ordinance establishing a minimum wage higher than the E.O. minimum wage. However, wage increases under such other laws or municipal ordinances are not subject to price adjustment under this subpart.

(9) The Contractor shall pay the E.O. minimum wage rate whenever it is higher than any applicable collective bargaining agreement(s) wage rate.

(10) The Contractor shall follow the policies and procedures in 29 CFR 10.24(b) and 10.28 for treatment of workers engaged in an occupation in which they customarily and regularly receive more than \$30 a month in tips.

(c)(1) This clause applies to workers as defined in paragraph (a). As provided in that definition--

(i) Workers are covered regardless of the contractual relationship alleged to exist between the contractor or subcontractor and the worker;

SECTION I OF NNG14490137R  
CONTRACT CLAUSES

(ii) Workers with disabilities whose wages are calculated pursuant to special certificates issued under 29 U.S.C. 214(c) are covered; and

(iii) Workers who are registered in a bona fide apprenticeship program or training program registered with the Department of Labor's Employment and Training Administration, Office of Apprenticeship, or with a State Apprenticeship Agency recognized by the Office of Apprenticeship, are covered.

(2) This clause does not apply to--

(i) Fair Labor Standards Act (FLSA)-covered individuals performing in connection with contracts covered by the E.O., i.e. those individuals who perform duties necessary to the performance of the contract, but who are not directly engaged in performing the specific work called for by the contract, and who spend less than 20 percent of their hours worked in a particular workweek performing in connection with such contracts;

(ii) Individuals exempted from the minimum wage requirements of the FLSA under 29 U.S.C. 213(a) and 214(a) and (b), unless otherwise covered by the Service Contract Labor Standards statute, or the Wage Rate Requirements (Construction) statute. These individuals include but are not limited to--

(A) Learners, apprentices, or messengers whose wages are calculated pursuant to special certificates issued under 29 U.S.C. 214(a).

(B) Students whose wages are calculated pursuant to special certificates issued under 29 U.S.C. 214(b).

(C) Those employed in a bona fide executive, administrative, or professional capacity (29 U.S.C. 213(a)(1) and 29 CFR part 541).

(d) Notice. The Contractor shall notify all workers performing work on, or in connection with, this contract of the applicable E.O. minimum wage rate under this clause. With respect to workers covered by the Service Contract Labor Standards statute or the Wage Rate Requirements (Construction) statute, the Contractor may meet this requirement by posting, in a prominent and accessible place at the worksite, the applicable wage determination under those statutes. With respect to workers whose wages are governed by the FLSA, the Contractor shall post notice, utilizing the poster provided by the Administrator, which can be obtained at [www.dol.gov/whd/govcontracts](http://www.dol.gov/whd/govcontracts), in a prominent and accessible place at the worksite. Contractors that customarily post notices to workers electronically may post the notice electronically provided the electronic posting is displayed prominently on any Web site that is maintained by the contractor, whether external or internal, and customarily used for notices to workers about terms and conditions of employment.

(e) Payroll Records.

(1) The Contractor shall make and maintain records, for three years after completion of the work, containing the following information for each worker:

(i) Name, address, and social security number;

(ii) The worker's occupation(s) or classification(s);

(iii) The rate or rates of wages paid;

(iv) The number of daily and weekly hours worked by each worker;

(v) Any deductions made; and

SECTION I OF NNG14490137R  
CONTRACT CLAUSES

(vi) Total wages paid.

(2) The Contractor shall make records pursuant to paragraph (e)(1) of this clause available for inspection and transcription by authorized representatives of the Administrator. The Contractor shall also make such records available upon request of the Contracting Officer.

(f) Access. The Contractor shall permit authorized representatives of the Administrator to conduct investigations, including interviewing workers at the worksite during normal working hours.

These disputes include disputes between the Contractor (or any of its subcontractors) and the contracting agency, the Department of Labor, or the workers or their representatives.

Failure to submit the Material Safety Data Sheet prior to award may result in the apparently successful offeror being considered nonresponsible and ineligible for award.

(e) If, after award, there is a change in the composition of the item(s) or a revision to Federal Standard No. 313, which renders incomplete or inaccurate the data submitted under paragraph (d) of this clause, the Contractor shall promptly notify the Contracting Officer and resubmit the data.

(iii) Have others use, duplicate, and disclose the data for the Government for these purposes.

(2) To use, duplicate, and disclose data furnished under this clause, in accordance with subparagraph (h)(1) of this clause, in precedence over any other clause of this contract providing for rights in data.

SECTION I OF NNG14490137R  
CONTRACT CLAUSES

(i) Except as provided in paragraph (i)(2) the Contractor shall prepare and submit a sufficient number of Material Safety Data Sheets (MSDS's), meeting the requirements of 29 CFR 1910.1200(g) and the latest version of Federal Standard No. 313, for all hazardous materials identified in paragraph (b) of this clause.

(b) If there has been no change affecting the quantity of activity, or the characteristics and composition of the radioactive material from deliveries under this contract or prior contracts, the Contractor may request that the Contracting Officer or designee waive the notice requirement in paragraph (a) of this clause. Any such request shall-

(1) Be submitted in writing;

SECTION I OF NNG14490137R  
CONTRACT CLAUSES

(2) *Data not first produced in the performance of this contract.* The Contractor shall not, without the prior written permission of the Contracting Officer, incorporate in data delivered under this contract any data not first produced in the performance of this contract unless the Contractor-

(i) Identifies the data; and

(ii) Grants to the Government, or acquires on its behalf, a license of the same scope as set forth in paragraph (c)(1) of this clause or, if such data are restricted computer software, the Government shall acquire a copyright license as set forth in paragraph (g)(4) of this clause (if included in this contract) or as otherwise provided in a collateral agreement incorporated in or made part of this contract.

(3) *Removal of copyright notices.* The Government will not remove any authorized copyright notices placed on data pursuant to this paragraph (c), and will include such notices on all reproductions of the data.

(d) *Release, publication, and use of data.* The Contractor shall have the right to use, release to others, reproduce, distribute, or publish any data first produced or specifically used by the Contractor in the performance of this contract, except-

(1) As prohibited by Federal law or regulation (*e.g.*, export control or national security laws or regulations);

(2) As expressly set forth in this contract; or

(3) If the Contractor receives or is given access to data necessary for the performance of this contract that contain restrictive markings, the Contractor shall treat the data in accordance with such markings unless specifically authorized otherwise in writing by the Contracting Officer.

(i) The Contractor agrees not to establish claim to copyright, publish or release to others any computer software first produced in the performance of this contract without the Contracting Officer's prior written permission.

(ii) If the Government desires to obtain copyright in computer software first produced in the performance of this contract and permission has not been granted as set forth in paragraph (d)(3)(i) of this clause, the Contracting Officer may direct the contractor to assert, or authorize the assertion of, claim to copyright in such data and to assign, or obtain the assignment of, such copyright to the Government or its designated assignee.

(iii) Whenever the word "establish" is used in this clause, with reference to a claim to copyright, it shall be construed to mean "assert".

(e) Unauthorized marking of data.

(1) Notwithstanding any other provisions of this contract concerning inspection or acceptance, if any data delivered under this contract are marked with the notices specified in paragraph (g)(3) or (g)(4) if included in this clause, and use of the notices is not authorized by this clause, or if the data bears any other restrictive or limiting markings not authorized by this contract, the Contracting Officer may at any time either return the data to the Contractor, or cancel or ignore the markings. However, pursuant to [41 U.S.C. 253d](#), the following procedures shall apply prior to canceling or ignoring the markings.

SECTION I OF NNG14490137R  
CONTRACT CLAUSES

(i) The Contracting Officer will make written inquiry to the Contractor affording the Contractor 60 days from receipt of the inquiry to provide written justification to substantiate the propriety of the markings;

(ii) If the Contractor fails to respond or fails to provide written justification to substantiate the propriety of the markings within the 60-day period (or a longer time approved in writing by the Contracting Officer for good cause shown), the Government shall have the right to cancel or ignore the markings at any time after said period and the data will no longer be made subject to any disclosure prohibitions.

(iii) If the Contractor provides written justification to substantiate the propriety of the markings within the period set in paragraph (e)(1)(i) of this clause, the Contracting Officer will consider such written justification and determine whether or not the markings are to be cancelled or ignored. If the Contracting Officer determines that the markings are authorized, the Contractor will be so notified in writing. If the Contracting Officer determines, with concurrence of the head of the contracting activity, that the markings are not authorized, the Contracting Officer will furnish the Contractor a written determination, which determination will become the final agency decision regarding the appropriateness of the markings unless the Contractor files suit in a court of competent jurisdiction within 90 days of receipt of the Contracting Officer's decision. The Government will continue to abide by the markings under this paragraph (e)(1)(iii) until final resolution of the matter either by the Contracting Officer's determination becoming final (in which instance the Government will thereafter have the right to cancel or ignore the markings at any time and the data will no longer be made subject to any disclosure prohibitions), or by final disposition of the matter by court decision if suit is filed.

(2) The time limits in the procedures set forth in paragraph (e)(1) of this clause may be modified in accordance with agency regulations implementing the Freedom of Information Act ([5 U.S.C. 552](#)) if necessary to respond to a request thereunder.

(3) Except to the extent the Government's action occurs as the result of final disposition of the matter by a court of competent jurisdiction, the Contractor is not precluded by paragraph (e) of the clause from bringing a claim, in accordance with the Disputes clause of this contract, that may arise as the result of the Government removing or ignoring authorized markings on data delivered under this contract.

(f) Omitted or incorrect markings.

(1) Data delivered to the Government without any restrictive markings shall be deemed to have been furnished with unlimited rights. The Government is not liable for the disclosure, use, or reproduction of such data.

(2) If the unmarked data has not been disclosed without restriction outside the Government, the Contractor may request, within 6 months (or a longer time approved by the Contracting Officer in writing for good cause shown) after delivery of the data, permission to have authorized notices placed on the data at the Contractor's expense. The Contracting Officer may agree to do so if the Contractor-

(i) Identifies the data to which the omitted notice is to be applied;

(ii) Demonstrates that the omission of the notice was inadvertent;

(iii) Establishes that the proposed notice is authorized; and

SECTION I OF NNG14490137R  
CONTRACT CLAUSES

(iv) Acknowledges that the Government has no liability for the disclosure, use, or reproduction of any data made prior to the addition of the notice or resulting from the omission of the notice.

(3) If data has been marked with an incorrect notice, the Contracting Officer may-

(i) Permit correction of the notice at the Contractor's expense if the Contractor identifies the data and demonstrates that the correct notice is authorized; or

(ii) Correct any incorrect notices.

(g) Protection of limited rights data and restricted computer software.

(1) The Contractor may withhold from delivery qualifying limited rights data or restricted computer software that are not data identified in paragraphs (b)(1)(i), (ii), and (iii) of this clause. As a condition to this withholding, the Contractor shall-

(i) Identify the data being withheld; and

(ii) Furnish form, fit, and function data instead.

(2) Limited rights data that are formatted as a computer database for delivery to the Government shall be treated as limited rights data and not restricted computer software.

(3) Notwithstanding paragraph (g)(1) of this clause, the contract may identify and specify the delivery of limited rights data, or the Contracting Officer may require by written request the delivery of limited rights data that has been withheld or would otherwise be entitled to be withheld. If delivery of that data is required, the Contractor shall affix the following "Limited Rights Notice" to the data and the Government will treat the data, subject to the provisions of paragraphs (e) and (f) of this clause, in accordance with the notice:

Limited Rights Notice (Dec 2007)

(a) These data are submitted with limited rights under Government Contract No. \_\_\_\_\_ (and subcontract \_\_\_\_\_, if appropriate). These data may be reproduced and used by the Government with the express limitation that they will not, without written permission of the Contractor, be used for purposes of manufacture nor disclosed outside the Government; except that the Government may disclose these data outside the Government for the following purposes, if any; provided that the Government makes such disclosure subject to prohibition against further use and disclosure:

(i) Use (except for manufacture) by support service contractors.

(ii) Evaluation by nongovernment evaluators.

(iii) Use (except for manufacture) by other contractors participating in the Government's program of which the specific contract is a part.

If delivery of that computer software is required, the Contractor shall affix the following "Restricted Rights Notice" to the computer software and the Government will treat the computer software, subject to paragraphs (e) and (f) of this clause, in accordance with the notice:

Restricted Rights Notice (Dec 2007)

(a) This computer software is submitted with restricted rights under Government Contract No. \_\_\_\_\_ (and subcontract \_\_\_\_\_, if appropriate). (6) Used or copied for use with a replacement computer and other legitimate government use.

(c) Notwithstanding the foregoing, if this computer software is copyrighted computer software, it is licensed to the Government with the minimum rights set forth in paragraph (b) of this notice.

(h) The Contractor agrees to insert the substance of this clause, including this paragraph (h), in each subcontract which meets the criteria in 29.401-4(b)(1) through (3) of the Federal Acquisition Regulation, 48 CFR Part 29.

(i) Paragraphs (a) through (h) of this clause shall be null and void should the Agreement referred to in paragraph (c) of this clause be terminated; provided, however, that such termination shall not nullify obligations already incurred prior to the date of termination.

(D) The extent, if any, to which the Contractor did not rely on the subcontractor's certified cost or pricing data in determining the price objective and in negotiating the final price;

(E) The extent to which it was recognized in the negotiation that the subcontractor's certified cost or pricing data were not accurate, complete, or current; the action taken by the Contractor and the subcontractor; and the effect of any such defective data on the total price negotiated;

(F) The reasons for any significant difference between the Contractor's price objective and the price negotiated; and

(G) A complete explanation of the incentive fee or profit plan when incentives are used. The explanation shall identify each critical performance element, management decisions used to quantify each incentive element, reasons for the incentives, and a summary of all trade-off possibilities considered.

(1) Of the acceptability of any subcontract terms or conditions;

(2) Of the allowability of any cost under this contract; or

(3) To relieve the Contractor of any responsibility for performing this contract.

(g) No subcontract or modification thereof placed under this contract shall provide for payment on a cost-plus-a-percentage-of-cost basis, and any fee payable under cost-reimbursement type subcontracts shall not exceed the fee limitations in FAR 15.404-4(c)(4)(i).

(h) The Contractor shall give the Contracting Officer immediate written notice of any action or suit filed and prompt notice of any claim made against the Contractor by any subcontractor or vendor that, in the opinion of the Contractor, may result in litigation related in any way to this contract, with respect to which the Contractor may be entitled to reimbursement from the Government.

SECTION I OF NNG14490137R  
CONTRACT CLAUSES

**I.140 1852.237-73 Release of Sensitive Information. (JUN 2005)**

(a) As used in this clause, "Sensitive information" refers to information, not currently in the public domain, that the Contractor has developed at private expense, that may embody trade secrets or commercial or financial information, and that may be sensitive or privileged.

(b) In accomplishing management activities and administrative functions, NASA relies heavily on the support of various service providers. To support NASA activities and functions, these service providers, as well as their subcontractors and their individual employees, may need access to sensitive information submitted by the Contractor under this contract. By submitting this proposal or performing this contract, the Contractor agrees that NASA may release to its service providers, their subcontractors, and their individual employees, sensitive information submitted during the course of this procurement, subject to the enumerated protections mandated by the clause at 1852.237-72, Access to Sensitive Information.

(c) (1) The Contractor shall identify any sensitive information submitted in support of this proposal or in performing this contract. For purposes of identifying sensitive information, the Contractor may, in addition to any other notice or legend otherwise required, use a notice similar to the following:

Mark the title page with the following legend:

This proposal or document includes sensitive information that NASA shall not disclose outside the Agency and its service providers that support management activities and administrative functions. To gain access to this sensitive information, a service provider's contract must contain the clause at NFS 1852.237-72, Access to Sensitive Information. Consistent with this clause, the service provider shall not duplicate, use, or disclose the information in whole or in part for any purpose other than to perform the services specified in its contract. This restriction does not limit the Government's right to use this information if it is obtained from another source without restriction. The information subject to this restriction is contained in pages *[insert page numbers or other identification of pages]*. Mark each page of sensitive information the Contractor wishes to restrict with the following legend:

Use or disclosure of sensitive information contained on this page is subject to the restriction on the title page of this proposal or document.

(2) The Contracting Officer shall evaluate the facts supporting any claim that particular information is "sensitive." This evaluation shall consider the time and resources necessary to protect the information in accordance with the detailed safeguards mandated by the clause at 1852.237-72, Access to Sensitive Information. However, unless the Contracting Officer decides, with the advice of Center counsel, that reasonable grounds exist to challenge the Contractor's claim that particular information is sensitive, NASA and its service providers and their employees shall comply with all of the safeguards contained in paragraph (d) of this clause.

(d) To receive access to sensitive information needed to assist NASA in accomplishing management activities and administrative functions, the service provider must be operating under a contract that contains the clause at 1852.237-72, Access to Sensitive Information. This clause obligates the service provider to do the following:

(1) Comply with all specified procedures and obligations, including the Organizational Conflicts of Interest Avoidance Plan, which the contract has incorporated as a compliance document.

(2) Utilize any sensitive information coming into its possession only for the purpose of performing the services specified in its contract.

(3) Safeguard sensitive information coming into its possession from unauthorized use and disclosure.

(4) Allow access to sensitive information only to those employees that need it to perform services under its contract.

SECTION I OF NNG14490137R  
CONTRACT CLAUSES

(5) Preclude access and disclosure of sensitive information to persons and entities outside of the service provider's organization.

(6) Train employees who may require access to sensitive information about their obligations to utilize it only to perform the services specified in its contract and to safeguard it from unauthorized use and disclosure.

(7) Obtain a written affirmation from each employee that he/she has received and will comply with training on the authorized uses and mandatory protections of sensitive information needed in performing this contract.

(8) Administer a monitoring process to ensure that employees comply with all reasonable security procedures, report any breaches to the Contracting Officer, and implement any necessary corrective actions.

(e) When the service provider will have primary responsibility for operating an information technology system for NASA that contains sensitive information, the service provider's contract shall include the clause at 1852.204-76, Security Requirements for Unclassified Information Technology Resources. The Security Requirements clause requires the service provider to implement an Information Technology Security Plan to protect information processed, stored, or transmitted from unauthorized access, alteration, disclosure, or use. Service provider personnel requiring privileged access or limited privileged access to these information technology systems are subject to screening using the standard National Agency Check (NAC) forms appropriate to the level of risk for adverse impact to NASA missions. The Contracting Officer may allow the service provider to conduct its own screening, provided the service provider employs substantially equivalent screening procedures.

(f) This clause does not affect NASA's responsibilities under the Freedom of Information Act.

(g) The Contractor shall insert this clause, including this paragraph (g), suitably modified to reflect the relationship of the parties, in all subcontracts that may require the furnishing of sensitive information.

(End of clause)

**I.141 52.232-40 Providing Accelerated Payment to Small Business Subcontractors (DEC 2013)**

(a) Upon receipt of accelerated payments from the Government, the Contractor shall make accelerated payments to its small business subcontractors under this contract, to the maximum extent practicable and prior to when such payment is otherwise required under the applicable contract or subcontract, after receipt of a proper invoice and all other required documentation from the small business subcontractor.

(b) The acceleration of payments under this clause does not provide any new rights under the Prompt Payment Act.

(c) Include the substance of this clause, including this paragraph (c), in all subcontracts with small business concerns, including subcontracts with small business concerns for the acquisition of commercial items.

(End of Clause)

**I.142 Clauses Incorporated by Reference – Section I**

**K.3 52.230-1 Cost Accounting Standards Notices and Certification. (MAY 2012)**

Note: This notice does not apply to small businesses or foreign governments. This notice is in three parts, identified by Roman numerals I through III.

Offerors shall examine each part and provide the requested information in order to determine Cost Accounting Standards (CAS) requirements applicable to any resultant contract.

If the offeror is an educational institution, Part II does not apply unless the contemplated contract will be subject to full or modified CAS coverage pursuant to 48 CFR 9903.201-2(c)(5) or 9903.201-2(c)(6), respectively.

**I. Disclosure Statement - Cost Accounting Practices and Certification**

(a) Any contract in excess of \$700,000 resulting from this solicitation will be subject to the requirements of the Cost Accounting Standards Board (48 CFR Chapter 99), except for those contracts which are exempt as specified in 48 CFR 9903.201-1.

(b) Any offeror submitting a proposal which, if accepted, will result in a contract subject to the requirements of 48 CFR Chapter 99 must, as a condition of contracting, submit a Disclosure Statement as required by 48 CFR 9903.202. When required, the Disclosure Statement must be submitted as a part of the offeror's proposal under this solicitation unless the offeror has already submitted a Disclosure Statement disclosing the practices used in connection with the pricing of this proposal. If an applicable Disclosure Statement has already been submitted, the offeror may satisfy the requirement for submission by providing the information requested in paragraph (c) of Part I of this provision.

Caution: In the absence of specific regulations or agreement, a practice disclosed in a Disclosure Statement shall not, by virtue of such disclosure, be deemed to be a proper, approved, or agreed-to practice for pricing proposals or accumulating and reporting contract performance cost data.

(c) Check the appropriate box below:

[ ] (1) *Certificate of Concurrent Submission of Disclosure Statement.* The offeror hereby certifies that, as a part of the offer, copies of the Disclosure Statement have been submitted as follows:

(ii) One copy to the cognizant Federal auditor.

Date of Disclosure Statement: *[Name and Address of Cognizant ACO or Federal Official Where Filed:]*

The offeror further certifies that the practices used in estimating costs in pricing this proposal are consistent

☐ (2) *Certificate of Previously Submitted Disclosure Statement.* The offeror hereby certifies that the required Disclosure Statement was filed as follows:

Date of Disclosure Statement: ☐

Name and Address of Cognizant ACO or Federal Official Where Filed: ☐

The offeror further certifies that the practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the applicable Disclosure Statement.

☐ (3) *Certificate of Monetary Exemption.* The offeror hereby certifies that the offeror, together with all divisions, subsidiaries, and affiliates under common control, did not receive net awards of negotiated prime contracts and subcontracts subject to CAS totaling \$50 million or more in the cost accounting period immediately preceding the period in which this proposal was submitted. The offeror further certifies that if such status changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.

☐ (4) *Certificate of Interim Exemption.* The offeror hereby certifies that (i) the offeror first exceeded the monetary exemption for disclosure, as defined in (3) of this subsection, in the cost accounting period immediately preceding the period in which this offer was submitted and (ii) in accordance with 48 CFR 9903.202-1, the offeror is not yet required to submit a Disclosure Statement. The offeror further certifies that if an award resulting from this proposal has not been made within 90 days after the end of that period, the offeror will immediately submit a revised certificate to the Contracting Officer, in the form specified under subparagraph (c)(1) or (c)(2) of Part I of this provision, as appropriate, to verify submission of a completed Disclosure Statement.

Caution: Offerors currently required to disclose because they were awarded a CAS-covered prime contract or subcontract of \$50 million or more in the current cost accounting period may not claim this exemption (4). Further, the exemption applies only in connection with proposals submitted before expiration of the 90-day period following the cost accounting period in which the monetary exemption was exceeded.

## II. Cost Accounting Standards - Eligibility for Modified Contract Coverage

If the offeror is eligible to use the modified provisions of 48 CFR 9903.201-2(b) and elects to do so, the offeror shall indicate by checking the box below. Checking the box below shall mean that the resultant contract is subject to the Disclosure and Consistency of Cost Accounting Practices clause in lieu of the Cost Accounting Standards clause.

☐ The offeror hereby claims an exemption from the Cost Accounting Standards clause under the provisions of 48 CFR 9903.201-2(b) and certifies that the offeror is eligible for use of the Disclosure and Consistency of Cost Accounting Practices clause because during the cost accounting period immediately preceding the period in which this proposal was submitted, the offeror received less than \$50 million in awards of CAS-covered prime contracts and subcontracts. The offeror further certifies that if such status changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.

Caution: An offeror may not claim the above eligibility for modified contract coverage if this proposal is expected to result in the award of a CAS-covered contract of \$50 million or more or if, during its current cost accounting period, the offeror has been awarded a single CAS-covered prime contract or subcontract of \$50 million or more.

SECTION L OF NNG14490137R  
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

It is NASA's intent, by providing the instructions set forth below, to solicit information that will demonstrate the offeror's competence to successfully complete the requirements specified in the Statement of Work (SOW), Attachment A. Generally, the proposal should:

- Demonstrate understanding of the overall and specific requirements of the proposed contract.
- Convey the company's capabilities for transforming understanding into accomplishment.
- Present in detail, the plans and methods for so doing.
- Present the costs associated with so doing.

In the event that other organizations are proposed as being involved in conducting this work, their relationships during the effort shall be explained and their proposed contributions shall be identified and integrated into each part of the proposal, as appropriate.

(a) PROPOSAL FORMAT AND ORGANIZATION

(1) Offerors shall submit proposals in four volumes as specified below:

Volume	Title	Hard Copies	CD-ROM Copies
I	Offer Volume	Original plus 5 Hard Copies	2 copies (MS Word)
II	Mission Suitability Volume	Original plus 5 Hard Copies	2 copies (MS Word)
III	Cost Volume	Original plus 3 Hard Copies	2 copies (Text in MS Word*; Cost data in Excel with formulas)
IV	Past Performance Volume	Original plus 4 Hard Copies	2 copies (MS Word)

**\*Required documentation such as corporate disclosure statements, audit reports, and DCAA letters may be provided in PDF format.**

(2) Offerors and proposed significant subcontractors for cost proposal purposes (defined as any subcontract that is likely to exceed \$25M over the contract performance period inclusive of basic period and all option periods) shall include one (1) additional separately packaged hardcopy of their Cost Proposal, marked "NNG14490137R/NASA Proposal Evaluation Material", which the Government will forward to the cognizant Defense Contract Audit Agency (DCAA) office with their audit request.

(3) All pages of Volumes I, II, III, and IV shall be numbered and identified with the offeror's name, RFP number and date. Subsequent revisions, if requested, shall be similarly identified to show revision number and date. A table of contents shall be provided with figures and tables listed separately.

(4) Two electronic copies of the offeror's proposal, designating one as "back-up," shall be submitted (in addition to the hardcopies specified above) in Microsoft Word and Excel (compatible with Windows 7) or Portable Document Format (PDF) (version 8.0 or greater). Cost proposal exhibits shall use Microsoft Excel compatible with Office 2007 and shall contain all formulas. DO NOT compress any electronic files. DO NOT password protect any portion of your electronic submission.

Electronic files of Volumes I, II, III, and IV shall be on virus free CD-ROM (CD-R format) discs with an external label indicating: (1) the name of the offeror, (2) the RFP number, (3) the format and software versions used, (4) a list of the files contained on the disk and (5) date of the information. The Offeror shall provide written documentation that describes the contents of each CD-ROM and of each file. In the event of any inconsistency between data provided on electronic media and hardcopies, the hardcopy data will be considered to be correct. The Offeror must certify that the electronic medium is virus free.

(5) The format for each proposal volume shall parallel, to the greatest extent possible, the format of the evaluation factors and subfactors contained in Section L of this solicitation. The proposal

SECTION L OF NNG14490137R  
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

content shall provide a basis for evaluation against the requirements of the solicitation. Each volume of the proposal shall specify the relevant evaluation criteria being addressed, if appropriate. The proposal shall include a matrix showing where in the proposal the technical requirements of the SOW and the evaluation criteria of this RFP are satisfied (i.e. SOW element versus offeror's proposal page numbers). It is intended that this be a simple matrix that should in no way inhibit an innovative approach or burden the offeror. This proposal matrix is excluded from the page limitations contained in paragraph (b)(1) below.

(6) Information shall be precise, factual, detailed and complete. Offerors shall not assume that the evaluation team is aware of company abilities, capabilities, plans, facilities, organization or any other pertinent fact that is important to accomplishment of the work as specified in the SOW. The evaluation will be based primarily on the information presented in the written proposal. The proposal shall specifically address each listed evaluation factor and subfactor.

**(b) PROPOSAL CONTENT AND PAGE LIMITATIONS**

(1) The following table contains the page limitations for each portion of the proposal submitted in response to this solicitation. Additional instructions for each component of the proposal are located in the contract provision noted under the Reference heading.

<b>Proposal Component</b>	<b>Volume</b>	<b>Reference</b>	<b>Page Limitations</b>
<b>Offer Volume</b>	<b>I</b>	<b>L.26</b>	<b>None</b>
<b>Mission Suitability Volume</b>	<b>II</b>	<b>L.28</b>	<b>150 Pages</b>

(a) Information from the Offeror			<b>25 Pages**</b>
(b) Cover Page, Indices, Small Business Subcontracting Plan History, Termination/Descope information, and List of Acronyms			<b>Excluded</b>

\*Prime Offeror and each individual significant subcontractor

\*\*Prime Offeror and all significant subcontractors (page limitation is for the total component (prime and significant subs)).

(2) A page is defined as one side of a sheet, 8-1/2" x 11", with at least one inch margins on all sides, using not smaller than 12 point type Times New Roman font. Line spacing or the amount of vertical space between lines of text shall not be less than single line (Microsoft Word's default line spacing). Character spacing shall be "Normal", not "Expanded" or "Condensed." The margins may contain headers and footers, but shall not contain any proposal content to be evaluated. Foldouts count as an equivalent number of 8-1/2" x 11" pages. The metric standard format most closely approximating the described standard 8-1/2" x 11" size may also be used.

Volumes I, II, III, and IV shall be submitted in separate ringed (or similarly bound) binders. Diagrams, tables, artwork, and photographs may be reduced and, if necessary, run landscape or folded to eliminate

SECTION L OF NNG14490137R

oversize pages. Text in Diagrams, schedules, charts, tables, artwork, and photographs shall be no smaller than 10 point. Diagrams, tables, artwork, and photographs shall not be used to circumvent the text size limitations of the proposal.

(3) Title pages, tabs, and tables of contents are excluded from the page counts specified in paragraph (1) of this provision (as well as other documents specified in table (b)(1) above). In addition, the Cost volume of your proposal is not page limited except for the page limit for the Basis of Estimate (BOE) section specified in table (b)(1) above. However, this volume is to be strictly limited to cost and price information. Information that can be construed as belonging in one of the other volumes of the proposal will be so construed and counted against that volume's page limitation.

(4) The Government intends to evaluate proposals and award contract(s) without discussions with offerors (except clarifications as described in FAR 15.306(a)). Therefore, the Offeror's initial proposal should contain the offeror's best terms from a cost or price and technical standpoint. The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. If discussions are held and final proposal revisions are requested, the Government will specify separate page limitations in its request for that submission.

(5) Pages submitted in excess of the limitations specified in this provision will not be evaluated by the Government and will be returned to the offeror in accordance with NFS 1815.204-70(b).

(End of provision)

**L.26 GSFC 52.215-203 Offer Volume (JAN 2014)**

This must be a separate volume.

Blocks 12 through 18 of the SF 33 and the indicated Offeror required fill-ins in Sections B-K must be completed. The signed SF33 and the pages with the required fill-ins must be submitted. Annual representations and certifications shall be completed electronically via the System for Awards Management (SAM) web site accessed through <https://www.acquisition.gov>, in accordance with provision K.1, Annual Representations and Certifications (52.204-8). The balance of the solicitation need not be returned unless the Offeror has made changes to other pages that will constitute part of the contract. Any such changes must be separately identified in the Summary of Exceptions. **All SF 33s require original signatures.**

(1) It is requested that Offerors indicate, in Block 12 of the SF 33, a proposal validity period of 300 days. However, in accordance with paragraph (d) of FAR provision 52.215-1, "Instructions to Offerors--Competitive Acquisitions," a different validity period may be proposed by the Offeror.

(2) Provide the names, phone numbers, and email addresses of persons to be contacted for clarification of questions of a technical nature and business nature. Identify any consultants and/or subcontractors used in writing this proposal (if any) and the extent to which their services will be available in the subsequent performance of this effort.

The contract schedule refers to TBD and TBP. They are defined as follows:

TBD = TO BE DETERMINED BY THE GOVERNMENT

TBP = TO BE PROPOSED BY THE CONTRACTOR

(b) SUMMARY OF EXCEPTIONS

Include a statement of acceptance of the anticipated contract provisions and proposed contract schedule, or list all specific exceptions to the terms, conditions, and requirements of Sections A through J of this solicitation, to the Representations and Certifications (Section K) or to the information requested in Section

SECTION L OF NNG14490137R  
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

L. Include the reason for the exception, new terms, conditions, and/or clauses, including any proposed benefit to the Government. This list must include all exception(s), deviation(s) and/or conditional assumptions taken.

Offerors are cautioned that exceptions or new terms, conditions, or clauses may result in a determination of proposal unacceptability (NFS 1815.305-70), may preclude award to an Offeror if award is made without discussions, or may otherwise affect an Offeror's competitive standing.

(c) ADDITIONAL INFORMATION TO BE FURNISHED

(1) Business Systems

State whether all business systems, including but not limited to accounting, property control, purchasing, estimating, and employee compensation, which require Government acceptance or approval (as applicable) are currently accepted/approved without condition.

Provide the date of acceptance/approval for each system and the cognizant contract administration office. Explain any existing conditional acceptances/approvals and the compliance status of any systems(s) for which acceptance or approval is currently withheld.

FAR 16.301-3 requires that a contractor's accounting system be adequate for determining costs applicable to the contract prior to the award of a cost-reimbursement contract. The Offeror shall provide evidence of an adequate accounting system as determined by the cognizant administrative office for accumulating and reporting incurred costs. If an Offeror is relying on the accounting system adequacy of a Joint Venture team member, sister company, or any other affiliated company's accounting system, they must demonstrate a convincing basis for using that system as a basis for determining their own adequacy. An adequate accounting system is not an evaluation criterion. It is a basic contract requirement with a pass/fail determination. A contract may only be awarded to the Offeror(s) who are determined to have an adequate accounting system.

Offerors who do not have an adequate accounting system determination shall provide evidence of any independent audit and system approvals as well as documented system ability to segregate and accrue costs by contract.

(2) Contract Administration

(3) Responsibility Information

Provide information addressing all of the elements under FAR 9.104 to demonstrate responsibility (address the elements under this section that are not addressed in another proposal volume).

(4) Taxpayer Identification Number

Prime Offerors shall provide their Taxpayer Identification Number (TIN) (the number required by the Internal Revenue Service (IRS) to be used by the Offeror in reporting income tax and other returns).

The first provision requires the submittal of certain information regarding the Offeror's Government property management procedures. The second provision requires the Offeror's to indicate if they intend to use any Government property that may be offered by this solicitation or if the Offeror requests the use of Government property not identified by this solicitation. This information should be included in this volume.

(6) Waiver of Rights to Inventions

This solicitation contains NASA FAR Supplement (NFS) clause 1852.227-70, "New Technology" and NFS provision 1852.227-71, "Request for Waiver to Rights to Inventions". Any petitions for advance (prior to contract execution) waiver of rights to inventions should be included in this volume.

(7) Cost Accounting Standards

State whether the Cost Accounting Standards (CAS) Disclosure Statement represented in Provision K.3, Cost Accounting Standards Notices and Certifications, has been approved by the cognizant Administrative Contracting Officer, and provide the date of such approval. If your CAS Disclosure Statement is currently not approved or there are some existing CAS non-compliance findings, please provide detailed explanation of the CAS non-compliance issues, corrective action status, and any potential impact on this procurement.

If an Offeror does not have this required clearance at the time of proposal, they shall describe in detail their approach for obtaining this clearance prior to the effective date of the contract (at the end of contract phase-in, if applicable). For proposals submitted as joint ventures, the facility clearance must be granted in the name of the joint venture and the joint venture CAGE code shall be provided.

(10) Organizational Conflicts of Interest

In accordance with NFS 1837.203-70, Providing Contractors Access to Sensitive Information, Offerors shall provide a preliminary analysis of possible organizational conflicts of interest that might flow from the award of this contract. Within 30 days after the contract effective date, the successful contractor shall submit for NASA approval a comprehensive Organizational Conflicts of Interest Avoidance Plan, which will be incorporated into the contract under Clause J.1, Attachment G, Organizational Conflicts of Interest Avoidance Plan. This comprehensive plan shall incorporate any previous studies performed; thoroughly analyze all organizational conflicts of interest that might arise because the Contractor has access to other companies' sensitive information; and establish specific methods to control, mitigate, or eliminate all problems identified. The Contracting Officer shall review the plan for completeness and identify to the Contractor substantive weaknesses and omissions for necessary correction. Once the Contractor has corrected the substantive weaknesses and omissions, the Contracting Officer shall incorporate the approved plan into the contract, as a compliance document.

**3. Mission Suitability Instructions by Subfactor**

Subfactor A – Management Approach

The Offeror shall briefly describe how it will provide sustaining engineering, supply chain management, and logistics support for Installation Accountable Government Property (IAGP) in accordance with relevant portions of SOW Section 2.1.1.6 requirements (acquire, receive, inspect, test, and accept into inventory all new program equipment, hardware, materials, and supplies, as well as operation, maintenance, and sustaining engineering plans for the fabrication shops, testing and qualification facilities, explosives storage facilities, and ground support equipment [including launchers]) and with the NSRP risk posture as described in Section 1.0 of the SOW.

The Offeror shall provide a detailed narrative that includes specific examples describing its process for procuring and in-processing a commercially available telemetry transmitter and describing its process for fabricating, assembling, and acceptance testing an in-house parachute recovery system (some components

of which may be commercially available, but which shall be assumed to already be in inventory for the purpose of the example scenario).

The Offeror shall provide a detailed narrative describing how it will balance fluctuating workloads to meet varying mission, campaign, and DRPA requirements, in particular: (i) its approach for managing the entire workforce to concurrently execute the Mission and DRPA Models included in the SOW; (ii) how it will manage all aspects of implementing the mission set while also managing multiple DRPA projects of varying types and complexities, while giving appropriate attention and priority to missions; (iii) how it will distribute and prioritize work among individuals within major groups or departments and how it will mitigate personnel conflicts; (iv) how it will provide extraordinary expertise or technical capabilities when required by the Program; and (v) how it will satisfy varying skill mix requirements.

The Offeror shall provide a schedule template developed in accordance with SOW Sections 2.2.1 through 2.2.5 for each of the four (4) mission complexity levels defined in SOW Section 2.2.1.

The Offeror shall provide an overall coordinated schedule for all missions listed in the Mission Model for the Base Period of the Contract (first two years). It shall identify potential conflicts for resources and specify how they will be resolved.

The Offeror shall describe its overall approach to individual mission staffing for each of the four (4) mission complexity levels and provide a general time-phased staffing by mission phase in accordance with SOW Sections 2.2.1 through 2.2.5 for each mission complexity level that includes appropriate skill mixes and the amount of time it is anticipated that assigned mission team technical staff will devote to each phase of the mission.

The Offeror's proposed mission team assignments shall: (i) reflect the Offeror's approach to meeting the requirements of Sections 2.1.2.5 through 2.1.2.9 of the SOW; (ii) be limited to mission team technical staff specifically assigned to the mission and address their individual responsibilities; and (iii) include all engineering and technical staff directly assigned as team members to a specific mission, but not include any management, administrative, or support staff such as those involved in the ongoing operations of fabrication facilities and technical laboratories. Individual mission staffing shall be consistent with the labor categories, hours, and position descriptions for each labor category as proposed by the Offeror in the Cost Volume.

The Offeror shall provide a narrative addressing SOW Section 2.1.2.8 describing its risk management approach for individual missions including how individual mission risks will be identified, evaluated, and tracked through closure.

The Offeror shall propose a risk management process compatible and consistent with the risk posture of the Sounding Rockets Program as defined in Section 1.0 of the SOW, and the Sounding Rocket Program Risk Management Plan (810-RMP-0001) in the Procurement Library.

The Offeror shall provide a detailed description of its implementation approach in accordance with SOW Sections 2.3, Table 6, for DRPA projects R13 and N12, including the engineering studies, analyses, design efforts, fabrication efforts, testing protocol and operational protocol.

The Offeror shall provide a schedule template and staffing plan for DRPA projects R13 and N12 that include: (i) general time-phased staffing, with labor categories, consistent with the proposed schedule template; and (ii) team assignments reflecting the Offeror's approach to meeting the requirements of SOW Sections 2.1.2.5 through 2.1.2.9. The Procurement Library historical data document provides total hours for each DRPA work order along with a breakdown in percentages among technical functional areas. If the Offeror's proposed staffing plan deviates from what the historical data indicates, the Offeror shall provide rationale for the deviation.

The Offeror shall describe its proposed internal and external review process for DRPA projects R13 and N12, including how its review process will identify critical issues and problem areas, track and verify the

appropriate disposition of identified problems and issues, and provide the Government with an appropriate level of insight into the process.

The Offeror shall describe its approach to attract, cultivate, and maintain a highly qualified workforce at the beginning and throughout the life of the contract including recruiting methods and hiring, training, promotion, and firing policies. The discussion shall take into consideration the challenges associated with the remote geographic location of Wallops and the extended periods of travel associated with implementing launch operations at remote locations worldwide.

The Offeror shall describe the positions considered critical to meet the requirements of the contract. The descriptions shall include the rationale for identifying these positions as critical. The Offeror shall provide written position qualifications for these critical positions. The Offeror shall address the minimum requirements in the position qualifications, to include the necessary experience, summary of duties and responsibilities, specific requirements/licensing, minimum education and minimum experience required for the position and the position title and to whom the position reports. All position qualifications will be incorporated into the resultant contract as Attachment R.

The Offeror shall provide a detailed phase-in plan that addresses, at a minimum, the Offeror's approach to phase-in sufficient to ensure continuity and a smooth transition with the incumbent Contractor during the 60-day phase-in period. The phase-in plan shall clearly demonstrate an ability to assume full contract responsibility on the effective date of the contract. The phase-in plan shall also specifically address how ongoing work will be maintained, the proposed management organization, schedule, orientation and training of personnel, including personnel who may be in the field supporting operations during phase-in and the start of the NSROC III contract. The Offeror's proposed Phase-In Plan shall describe how the security challenges associated with International Traffic in Arms Regulations (ITAR) 22 C.F.R. Chapter I, Subchapter M Parts 120-130 requirements and the requirements for HSPD-12 facility personnel access and personnel security clearance processes will be prepared for during phase-in so as to prevent work interruptions on the contract effective date. If the phase-in plan assumes any dependency upon the incumbent contractor, please identify. Also, specify the extent of involvement of NASA personnel during this period.

The offeror shall provide a Total Compensation Plan (TCP) for all personnel proposed, in accordance with NFS provision 1852.231-71, "Determination of Compensation Reasonableness," and FAR provision 52.222-46, "Evaluation of Compensation for Professional Employees." The required professional compensation plan must:

Classify all labor categories proposed as "exempt" or "non-exempt" positions. Briefly define the terms "exempt" and "non-exempt" as used by your organization and correlate your definition with that provided for in the Code of Federal Regulations.

Identify the categories of personnel that are in a bona fide executive, administrative or professional capacity as defined by FAR 22.1102 and 29 CFR 541.

In accordance with the Exhibits 11A and 11B "Fringe Benefits", the offeror and all service subcontractors (as defined in paragraph (d) of NFS provision 1852.231-71) shall provide a detailed list of their fringe benefits and company estimated cost per hour, along with an itemization of the benefits that require employee contributions and the amount of that contribution as a percentage of the total cost of the benefit. Two exhibits shall be submitted, one containing the average of fringe benefit information for all the exempt labor categories and one containing the average of fringe benefit information for all the non-exempt labor categories. (The Mission Suitability Proposal must not include Exhibits 11A and 11B but should reference where the information appears in the Cost Proposal.)

Provide supporting data, such as recognized national, regional, and local compensation surveys and studies of professional, public and private organizations, used in establishing the total professional compensation structure.

SECTION L OF NNG14490137R  
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

The Offeror shall provide a Safety and Health Plan in accordance with NFS Provision 1852.223-73, “Safety and Health Plan”. The Offeror shall discuss its approach to compliance with all applicable NASA policies and procedures relative to safety, occupational health, and NASA Procedural Requirements (NPR) 8715.3 “NASA General Safety Program Requirements.”

This plan, as approved by the Government, will be included in any resulting contract. Offerors are directed to NPR 8715.3, Appendix E instructions regarding the contents of Safety and Health Plan. NPR 8715.3 can be accessed at the following website:

<http://nodis3.gsfc.nasa.gov/displayDir.cfm?t=NPR&c=8715&s=3C>

The Offeror shall indicate if any of the standard contents of the Safety and Health Plan, as prescribed by NPR 8715.3, would not be applicable to this specific contract, and provide an explanation for that determination.

The Offeror’s plan shall address their approach to handling the hazardous materials identified in Section I, “Hazardous Material Identification and Material Safety Data” (FAR 52.223-3--Alternate I), if applicable.

**Subfactor B – Technical Approach**

The Offeror shall propose solutions for each of the top Program technical challenges as defined in Enclosure 1, which include (i) maintaining Program progress in launching missions in the event that heritage propulsion systems exhibit major technical performance anomalies, (ii) developing a common flight termination ordnance package for multiple sustainer and exo-atmospheric motors to be utilized at multiple launch sites, and (iii) providing the appropriate level of oversight and insight into the design, analysis, and testing of science instruments. In its proposed solution for each Program technical challenge, the Offeror shall describe its technical approach including the rationale and justification for how the proposed solutions will maintain or enhance the Program's ability to meet customer requirements and the requirements of the mission model (Attachment A, SOW Table 3) consistent with the NSRP risk posture and low cost access to space (LCAS) approach as described in Section 1.0 of the SOW.

The Offeror shall propose a general approach for addressing each of the top areas for Program innovation as defined in Enclosure 4 by: (i) describing its process for defining requirements, conducting research, performing engineering studies, conducting qualification efforts, and implementation in each of the innovation areas; (ii) specifically describing the types of hardware, software, or operational aspects of its approach in the context of how the innovation will help enhance its ability to meet mission requirements; and (iii) providing a cost benefit analysis for innovations as well as a description of whether the innovation will be implemented in house or via an outside vendor.

**Subfactor C – Small Business Utilization (SBU)**

All offerors, except small businesses, must complete the portion of the instructions under Small Business Subcontracting specific to Small Business Subcontracting Plans. Small businesses are not required to submit Small Business Subcontracting Plans; however, small businesses are required to indicate the amount of effort proposed to be done by a small business either at the prime level or at the first tier subcontract level.

All offerors are required to complete the instructions regarding the Commitment to Small Businesses.

**(a) Small Business Subcontracting**

**Small Business Subcontracting Plan (the Plan) Required by the FAR:**

(1) This solicitation contains FAR clause 52.219-9 (Deviation)—Alternate II, “Small Business Subcontracting Plan”. The Plan described and required by the clause, including the associated subcontracting percentage goals and subcontracting dollars, shall be submitted with your proposal.

SECTION L OF NNG14490137R  
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

(2) The Contracting Officer's assessment of appropriate subcontracting goals for this acquisition, expressed as a percent of the TOTAL CONTRACT VALUE (basic and all options combined) is as follows:

Small Businesses (SB)	25.00%
Small Disadvantaged Business Concerns (SDB)	5.00%
Women Owned Small Business Concerns (WOSB)	3.50%
Historically Black Colleges and Universities (HBCU)	3.00%
HUBZone Small Business Concerns (HBZ)	2.00%
Veteran Owned Small Business Concerns (VOSB)	4.00%
Service-Disabled Veteran-Owned Small Business Concerns (SDVOSB)	1.00%

(3) The numbers above reflect the Contracting Officer's assessment of the appropriate subcontracting goals to be achieved at the completion of contract performance. When appropriate, an offeror may discuss plans to phase-in small business concerns, explaining the rationale for the phase-in schedule. If it is anticipated that the proposed small business goals will not be met by the submission of the first Individual Subcontracting Report (ISR) for this effort as required by 52.219-9 Small Business Subcontracting Plan (Deviation), the Offeror should discuss their approach to include timeline for meeting these goals and the rationale for it.

(4) Offerors are encouraged to propose goals that are equivalent to or greater than those recommended by the Contracting Officer. However, offerors must perform an independent assessment of the small business subcontracting opportunities and are encouraged to propose goals exceeding the recommended goals where practical.

(5) The Plan submitted with the proposal shall be incorporated in Section J as Attachment I in the resulting contract. The requirements in the Plan must flow down to first tier large business subcontracts expected to exceed \$650,000 or \$1,500,000 for construction of a public facility. Although these first tier large business subcontractors are encouraged to meet or exceed the stated goals, it is recognized that the subcontracting opportunities available to these subcontractors may differ from those suggested in the solicitation based upon the nature of their respective performance requirements.

(6) Offerors are advised that a proposal will not be rejected solely because the submitted Plan does not meet the NASA recommended goals that are expressed in paragraph a) (2) above in terms of percent of the TOTAL CONTRACT VALUE (basic and all options combined). NASA will consider the amount of work being retained for performance by the prime contractor in-house when determining whether a subcontracting plan is acceptable. Offerors shall discuss the rationale for any goal proposed that is less than the Contracting Officer's recommended goal in any category. In addition, the Offeror shall describe the efforts made to establish a goal for that category and what ongoing efforts, if any, the Offeror plans during performance to increase participation in that category.

(7) In addition to submitting a Small Business Subcontracting Plan in accordance with the Section I FAR clause 52.219-9 (Deviation)--Alternate II, offeror's shall complete Exhibits 15A, 15B, and 15C, SMALL BUSINESS SUBCONTRACTING PLAN GOALS, which provides a breakdown of the offeror's proposed goals, by small business category, expressed in terms of both a percent of the TOTAL CONTRACT VALUE (basic and all options combined) and a percent of TOTAL PLANNED SUBCONTRACTS. Offerors shall show the proposed subcontracting goals for the basic contract requirement and each option separately.

(NOTE: FOR PURPOSES OF THE SMALL BUSINESS SUBCONTRACTING PLAN, THE PROPOSED GOALS SHALL BE STATED AS A PERCENT OF TOTAL SUBCONTRACTS, NOT AS A PERCENT OF THE TOTAL CONTRACT VALUE (BASIC AND ALL OPTIONS COMBINED), REFER TO THE BELOW EXAMPLE)

SECTION L OF NNG14490137R  
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

Example of Subcontracting Goals as expressed in both the Total Contract Value (basic and all options combined) and Subcontract Value for a contract value of \$100M and estimated subcontracts of \$50M.

	<i>Column A</i>	<i>Column B</i>	<i>Column C</i>
<b>Category</b>	<b>Percent of Total Contract Value</b>	<b>Dollar Value</b>	<b>Percent of Subcontracting Value</b>
Small Business Concerns	25 percent	\$25,000,000	50 percent
<i>The following subcategories are inclusive of the above Small Business percentage</i>			
Small Disadvantaged Business Concerns	5.5 percent	\$5,500,000	11 percent
Women Owned Small Business Concerns	9 percent	\$9,000,000	18 percent
Historically Black Colleges and Universities	1.5 percent	\$1,500,000	3 percent
HUBZone Small Business Concerns	1.5 percent	\$1,500,000	3 percent
Veteran Owned Small Business Concerns	2.5 percent	\$2,500,000	5 percent
Service-Disabled Veteran-Owned Small Business Concerns	1.5 percent	\$1,500,000	3 percent

The Offeror proposes small business subcontracting goals as a percentage of the Total Contract Value (basic and all options combined) in column A.

Then based on the \$100 million Total Contract Value (basic and all options combined), the resulting statement of dollars that the Offeror would include in the Subcontracting Plan, as required by paragraph (d)(2) of FAR clause 52.219-9(Deviation)—Alternate II, would be as indicated in column B.

However, the Small Business Subcontracting Plan shall also express goals as a percent of total planned subcontracts. Assuming total subcontracting of \$50M, the resulting percentage goals, expressed as a percent of total subcontract dollars, and which would be stated in the Small Business Subcontracting Plan as required by paragraph (d)(1) FAR clause 52.219-9 (Deviation)--Alternate II would be recorded in column C.

**(b) Commitment to the Small Business Program**

(1) All Offerors must briefly describe work that will be performed by small businesses. Information could also include the identification of any work to be subcontracted considered “high technology.” High Technology is defined as research and development efforts that are within or advance the state-of-the-art in technology discipline and are performed primarily by professional engineers, scientists, and highly skilled and trained technicians or specialists.

(2) If the subcontractor(s) is known, offerors must connect the work to the subcontractor and specify the extent of commitment to use the subcontractor (s) (enforceable vs. non-enforceable commitments). Small business offerors shall provide this information to the extent subcontracting opportunities exist in their approach to performing the requirement.)

(3) All Offerors shall provide information demonstrating the extent of commitment to utilize small business concerns and to support their development. Information provided should include a brief description of established or planned procedures and organizational structure for Small Business outreach, assistance, counseling, market research and Small Business identification, and relevant purchasing procedures. (For Large Business Offerors, this information should conform to applicable portions of your submitted Small Business Subcontracting Plan. Small Business Offerors shall provide this information to the extent subcontracting opportunities exist in their approach to performing the requirement.)

(4) The NASA Mentor-Protégé Program is designed to incentivize NASA large prime contractors to assist a small disadvantaged business (SDB), a women-owned small business (WOSB), a HUBZone small

business, a veteran-owned or service-disabled veteran-owned small business, an historically black college and university (HBCUs), and minority institution of higher education (MIs) in enhancing their capabilities to perform NASA contracts and subcontracts, foster the establishment of long-term business relationships between these entities and NASA large prime contractors, and increase the overall number of these entities that receive NASA contract and subcontract awards. Provide a description of the prime's planned participation in the NASA Mentor Protégé Program.

**L.29 GSFC 52.215-221 Cost Volume Instructions (MAY 2014)**

The Federal Acquisition Regulation (FAR) requires Contracting Officers to purchase supplies and services from responsible sources at fair and reasonable prices. It is expected that adequate price competition will be obtained under this solicitation so that submission of certified cost or pricing data is not required pursuant to FAR 52.215-20, Requirements for Certified Cost or Pricing Data and Data Other Than Certified Cost or Pricing Data--Alternate IV. The term "data other than certified cost or pricing data" is defined at FAR 2.101.

**1. Instructions**

An important prerequisite for the award of the contract is the Prime Offeror must have an accounting system that has been determined adequate by the cognizant administrative office for accumulating and reporting incurred costs prior to contract award. While these proposals are not required to be cost certified, they are to be in sufficient detail to allow direct and indirect rate verification and audit of selected. The cost proposal should be prepared in a manner consistent with your current accounting system.

The required format for other than certified cost or pricing data is for evaluation purposes. The cost for any resultant contract will be awarded on the basis of the successful Offeror's normal estimating and/or accounting system or the system set forth in the Cost Accounting Standards Board Disclosure Statement required by Public Law 100-679, if applicable. If the Offeror's estimating and/or accounting practice differs from the required cost proposal format, the costs should be computed in accordance with the Offeror's normal accounting and estimating procedures and provide your rationale for the format adjustments.

Direct labor must be estimated on the basis of productive effort. Productive effort is the estimated number of hours required to perform the work. Vacations, holidays, sick leave, and any other paid absences shall not be cited as direct labor, but shall be separately identified and priced or included in indirect costs.

Final monetary extensions in the cost proposal should be expressed as the closest whole dollar amount, with cents omitted.

Duty charges, if any, shall be included in the cost, regardless of whether or not duty free certificates are obtained.

A "subcontract" is any contract, purchase order, material order, interorganizational transfer, etc. that is a direct cost to this acquisition. The Offeror shall provide sufficient detail to support and explain all costs proposed. For the purposes of the Cost Volume, a significant subcontractor is defined as a subcontractor expected to exceed \$25M of the total proposed contract value (Base plus Option periods). A proposed significant subcontractor shall complete and submit Exhibits 2L, 3, 4, 5, 7, 8, 9, 11A, 11B, 12, 13, 14, 16A and 16B and provide the supporting information that is requested from the Prime Offeror. Any prospective subcontractor may submit proprietary cost data, under separate cover, directly to the Government no later than the date and time specified in the instructions for receipt of proposals for this RFP.

Offerors, including proposed significant subcontractors, shall submit electronic copies of the cost proposal charts contained in the referenced exhibits in Microsoft Excel format on CD-ROMs. Two copies of the CD-ROMs shall be submitted with one copy identified as the backup. This requirement is in addition to the required hard copies. Offerors shall include all formulas in the cost charts to substantiate the whole dollar

SECTION L OF NNG14490137R  
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

amount proposed. Offerors shall certify that all disks are virus-free. In the event of any inconsistency between data provided on electronic media and hard copies, the hard copy data will be considered to be correct.

Offerors, including proposed significant subcontractors, shall provide one separately packaged copy of their cost proposal marked for their cognizant DCAA auditing office with their proposal. The name, mailing address, email address, and phone number of the cognizant DCAA office are to be included in the written narrative of the Offer Volume proposal as well as **Exhibit 16A**. Please ensure that all contact information provided is current and correct.

All pricing and estimating techniques shall be clearly explained in detail (projections, rates, ratios, percentages, factors, etc.) and shall support the proposed costs in such a manner that audit, computation, and verification can be accomplished. All past actuals shall show the periods of time and costs in detail when used as a basis for estimating the proposed costs.

In order to establish the reasonableness and realism of the proposed costs, and the extent to which costs reflect performance addressed in the Mission Suitability Proposal, each Offeror, including proposed significant subcontractors, shall submit the other than certified cost or pricing data described in Section 2 below.

## **2. Cost Proposal Format**

### **(a) DIRECT AND INDIRECT RATE SUBSTANTIATION**

If salary surveys were used as the basis for the proposed direct labor rates, provide a summarization of all salary surveys used, including the name, date of survey, geography, survey labor categories, survey percentiles, and survey salaries. If proposing a salary lower than the median, identify the median and provide rationale.

Indicate how you have computed and applied your indirect cost rates, including cost breakdowns. Show numerical trends and budgetary data to provide a basis for evaluating the reasonableness of pool costs and base projections. It is important that rate pool components are clearly defined and reasonably estimated, that projections regarding future sales are fully supported and are reasonable in their estimation, and that completed/expiring contracts are properly accounted for as reductions in the business base projections. As such, provide a detailed narrative explaining the basis of the indirect rate derivation, describing the types of costs accumulated for the specific rate pool and their estimation rationale, and the methodology for the projected base of application. Also provide the actual indirect rates realized for the last three contractor fiscal years, annotating if the rate is audited or unaudited. The further your proposed rates depart from established, historical indirect rates, the more essential it is that the proposal thoroughly addresses and justifies the basis for the changes in your proposed rates. Failure to provide this justification may result in cost realism adjustments to your proposal due to the application of rates the Government deems more reasonable and supportable (e.g., historical rates as charged under existing contracts or as supplied by cognizant audit and administrative agencies).

The escalation proposed for labor must be stated along with the actual escalation experienced in the last three years. Provide a statement of rationale, including the derivation, for the proposed escalation rates. If escalation is not proposed, explain why. The Offeror shall also discuss the rationale for any escalation proposed for the other cost elements. The Offeror shall also include the company's escalation history for each other cost element experienced in the past three years.

The Offeror shall clearly identify and list any cost items that will be routinely direct charged as an Other Direct Cost in the contract. The supporting rationale associated with these proposed ODC expenses shall also be submitted. Nonproposed costs are already included in the cost exhibits where their inclusion is necessary and need not be included by the Offeror in any other exhibit.

(d) BASIS OF ESTIMATES (BOE)

SECTION L OF NNG14490137R  
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

The BOEs are to be submitted for the entire potential five year period of performance (Base plus Option periods) at the lowest WBS Level only (WBS Level 3 – SOW 2.1.1, 2.1.2, 2.2 MCL 1, 2.2 MCL 2, etc.). The Offeror shall give the Government insight into the cost estimating thought processes and methodologies used by the Offeror in estimating the quantities of labor hours/costs, other direct costs, etc. required for successful performance by elements of cost. Emphasis should be placed on a description of the cost estimating processes and methodologies themselves, and how these relate to the technical approach described in the proposal. The information provided under this section, along with audit information, will be used to assess the cost realism aspect of Mission Suitability.

As a minimum, include the following information in the BOE in the format that is most convenient, preferably the format which shall be used for the actual contract performance:

- Narrative explaining how you arrived at your estimate of labor hours, including: if your estimate was based on similar program(s), in which case, identify and provide a brief reason why the programs are similar; a standard, in which case, identify the standard and explain if it is from the industry, your company, or a product; or engineering judgment, in which case, explain the philosophies used.
- Complexity factors utilized--all factors must be identified
- Explain in detail how your Program Management and Administrative Support are costed. If direct, explain the estimating approach and assumptions (hours per year, percentage of direct labor hours or costs, etc.). If indirect, identify what pool each function is included.
- Use of any established cost-estimating relationships
- How subcontracts were estimated. Please note if you have experience with the proposed subcontractor(s), if utilized. For any significant subcontract that has a potential estimated value in excess of the threshold stated in Section 1 instructions above, BOEs must be provided for that subcontract following the above specified format.
- An explanation of how all materials, travel, equipment, and other direct costs were estimated, including any assumptions made in determining escalation/adjustment of pricing between Government Fiscal Years.

BOEs shall be submitted by both the Prime Offeror and all Significant Subcontractors and shall comply with the BOE page limitations set forth in the PROPOSAL PREPARATIONS—GENERAL INSTRUCTIONS provision of this RFP.

(e) SUMMARY OF INDIRECT RATES

**Exhibit 3** shows the Contractor Fiscal Year to Government Fiscal Year rate conversion for Overhead, G&A, and any “Other” indirect rates that the Offeror proposes in accordance with its current accounting system. An **Exhibit 3** shall be submitted by the Prime Offeror and each individual Significant Subcontractor and clearly identify the indirect rate base of application. Please note that the Contract Year Composite indirect rates shall match the rates proposed in Exhibits 2A through 2K – ELEMENTS OF COST BY WORK BREAKDOWN STRUCTURE (WBS).

(f) SUMMARY OF RECURRING OTHER DIRECT COSTS (ODCs)

Offerors shall complete **Exhibit 4** for any recurring ODCs (e.g. computer usage, program management, depreciation, administrative support, etc.) routinely bid on an established Cost Estimating Relationship (CER) in accordance with your current accounting system. In this exhibit, the Offerors shall show the percentage, rate, and/or dollar amount used, as well as, a detailed explanation of the basis of application and estimating approaches and assumptions.

SECTION L OF NNG14490137R  
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

If all recurring ODCs are included in your indirect expenses, **DO NOT** remove them from your indirect pools and include them in this exhibit. If you do not have any established CERs, insert “NONE” in this exhibit.

Two exhibits shall be submitted, **Exhibit 11A** containing the average of fringe benefit information for all the exempt labor categories, and **Exhibit 11B** containing the average of fringe benefit information for all the non-exempt labor categories. These exhibits fulfill the Total Compensation Plan requirement under FAR 52.222-46 for non-significant subcontractors.

(n) PRODUCTIVE WORK YEAR CALCULATIONS

**Exhibit 12** summarizes the Offeror’s productive work year and how it is calculated. If exempt and non-exempt employees are proposed, separate exhibits must be provided for each classification.

This exhibit also shows the conversion of the overhead rate from the Contractor Fiscal Year to GFY.

If more than one overhead pool is proposed, a separate **Exhibit 13** shall be included for each pool. Include the rationale for multiple overhead pools. If the rates are negotiated forward pricing rates, furnish date of negotiation and with who negotiated. If not negotiated, furnish explanation and basis of rates.

(p) GENERAL AND ADMINISTRATIVE (G&A) (COMPOSITION OF BURDEN POOL)

**Exhibit 14** shows the details of the expenses in the G&A pool by Contractor Fiscal Year. This exhibit shows the actual expenses for the prior three years and projected expenses through the life of the contract. This exhibit also shows the conversion of the G&A rate from the Contractor Fiscal Year to GFY.

If more than one G&A pool is proposed, a separate **Exhibit 14** shall be included for each pool. Include the rationale for multiple G&A pools. If the rates are negotiated forward pricing rates, furnish date of negotiation and with who negotiated. If not negotiated, furnish explanation and basis of rates.

(q) SMALL BUSINESS SUBCONTRACTING PLAN GOALS

As addressed in the Mission Suitability Proposal instructions (Subfactor C), the Offeror shall complete **Exhibits 15A, 15B and 15C**, which provides a breakdown of the Offeror's proposed goals, by small business category, expressed in terms of both a percent of the TOTAL CONTRACT VALUE and a percent of TOTAL PLANNED SUBCONTRACTS. **Exhibit 15A** shows a breakdown of the proposed goals for the base contract period, **Exhibit 15B** shows the proposed goals for each individual option period, and **Exhibit 15C** summarizes the proposed goals for the total contract (base period plus both option periods).

(r) DCAA AND DCMA INFORMATION

Offerors shall complete **Exhibits 16A and 16B** and provide the requested information necessary to contact appropriate audit authorities regarding the Offeror's business systems, status of financial disclosures, negotiated forward pricing rates, etc. Offerors must ensure that the information provide is current and accurate.

(End of provision)

**L.30 GSFC 52.215-230 Past Performance Volume (JUN 2014)**

An Offeror's past performance record indicates the relevant quantitative and qualitative aspects of performing services or delivering products similar in size and content to the requirements of this acquisition.

The Offeror shall provide, at a minimum, the following information in support of its proposal to facilitate the evaluation of the Offeror's past performance as related to the requirements of the proposed contract.

(a) INFORMATION FROM THE OFFEROR

Prime Offerors shall furnish the information requested below for all of your most recent contracts (completed and ongoing) for similar efforts with a minimum average annual cost/fee incurred of \$10M that your company has had within the last 5 years of the RFP release date.

SECTION L OF NNG14490137R  
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

For the purposes of the Past Performance Volume, a proposed significant subcontractor is defined as any proposed subcontractor that is estimated to meet/exceed an average annual cost/fee of \$2M. *Note: the definition of significant subcontractor for the past performance evaluation may be different than for the cost evaluation.* The Offeror shall provide the information requested below for any significant subcontractor(s) for those similar efforts within the last 5 years of the RFP release date with a minimum average annual cost/fee incurred of at least 25% of the estimated average annual dollar value of the proposed significant subcontract.

For example (note, these example numbers may not relate to this specific procurement), if a procurement is valued at an average annual value of \$50M and a proposed significant subcontractor for the effort has a proposed average annual cost/fee of \$16M, the Offeror shall provide relevant current/past contract references that have a minimum average annual cost/fee incurred at/above \$4M (25% of \$16M) for that significant subcontractor.

If a prime Offeror or significant subcontractor is submitting past performance data on a current/past contract vehicle that includes multiple tasks, orders, etc, all effort under that contract vehicle may be consolidated for the purposes of meeting the average annual cost/fee incurred in the instructions above and for the purpose of evaluating contract relevance for the proposed requirement.

The Offeror shall provide an estimated value and percentage of work to be performed on this contract by the Prime Offeror and each significant subcontractor, consistent with other proposal volumes. Indicate the primary functions (SOW, WBS, etc) to be performed by the Prime Offeror and each proposed significant subcontractor. Indicate which contracts are most related (i.e. similar in size and content) and how they are related to the proposed effort, as well as which contracts were performed by the division of your company (if applicable) that will perform the proposed contract/subcontract.

If applicable, Offerors may provide the experience or past performance of a parent or affiliated or predecessor company to an Offeror (including Joint Venture prime partner companies and/or a parent or affiliated company that is being otherwise proposed as a subcontractor on this effort) where the firm's proposal demonstrates that the resources of the parent or affiliate or predecessor will affect the performance of the Offeror. The Offeror shall demonstrate that the resources of the parent or affiliate or predecessor company (its workforce, management, facilities or other resources) shall be provided or relied upon for contract performance such that the parent or affiliate or predecessor will have meaningful involvement in contract performance.

**The Offeror shall provide the following information on all past/current contract references that meet the above criteria for the Prime Offeror and each significant subcontractor:**

- Customer's name, address, and telephone number of both the lead contractual and technical personnel most familiar with the Offeror's performance record. (Please verify the telephone numbers provided are current and correct).
- Cage Code and/or DUNS Number of the contractor performing the work.
- Contract number, type, and total original and present or final contract value.
- The current contract expenditures incurred to date, the date in which the expenditures have been incurred through, and the Average Annual Cost/Fee Incurred to Date. For example (note, these example numbers may not relate to this specific procurement):

A current five year contract that you are performing has a total estimated value of \$100,000,000. As of the latest cost report which reflected cost/fee through the first 2 years and 4 months of performance, the total amount of cost/fee incurred by the Offeror over the duration of the contract was \$43,500,000.

In this example, an Offeror would provide the following:

SECTION L OF NNG14490137R

Date in which Expenditures have been incurred through: Insert Date of cost report that indicated cost/fee total of \$43,500,000 after 2 years and 4 months of performance.

Average Annual Cost/Fee Incurred to Date: \$18,669,528 (\$43,500,000/2.33 years)

- Date of contract, place(s) of performance, and delivery dates or period of performance.
- Brief description of contract work and comparability to the proposed effort. It is not sufficient to state that it is comparable in magnitude and scope. Rationale must be provided to demonstrate that it is comparable.
- Method of acquisition: competitive or noncompetitive.
- Nature of award: initial or follow-on. If initial, indicate whether award was preceded by a Government, customer, or Offeror financed study.
- Identify and explain major technical problems and how they were overcome. List any major deviations or waivers to technical requirements that were granted by the customer.

- Statement of contract past safety performance and a record of your company's OSHA recordable injuries and illnesses for the past 3 years.
- List any contracts terminated (partial or complete) within the past 5 years and basis for termination (convenience or default). Include the contract number, name, address, and telephone number of the terminating officer (please verify telephone numbers). Include contracts that were "descoped" by the customer because of performance or cost problems. (Excluded from the page limitation).

SECTION M OF NNG14490137R  
EVALUATION FACTORS FOR AWARD

**SECTION M - EVALUATION FACTORS FOR AWARD**

**M.1 52.217-5 Evaluation of Options. (JUL 1990)**

**M.2 GSFC 52.209-300 Prospective Contractor Responsibility (JAN 2014)**

(a) The standards and procedures for determining whether prospective contractors and subcontractors are responsible are set forth in FAR Subpart 9.1. Deficiencies concerning the general standards of prospective contractor responsibility at FAR 9.104-1, and any special standards established for this procurement under FAR 9.104-2, may be serious enough to result in a determination of non-responsibility. As with all aspects of prospective contractor responsibility, a finding of non-responsibility can be made at any time prior to contract award. However, even if such deficiencies are not so serious to result in such a determination, they will nonetheless be considered in the evaluation as conducted under the evaluation factors set forth in this solicitation.

(b) The following special standards of responsibility have been established for this procurement: NONE

(End of provision)

**M.3 GSFC 52.215-300 Source Selection and Evaluation Factors—General (JAN 2014)**

**1. Source Selection**

This competitive negotiated acquisition shall be conducted in accordance with FAR 15.3, "Source Selection", and NASA FAR Supplement (NFS) 1815.3, same subject. The Source Evaluation Board procedures at NFS 1815.370, "NASA Source Evaluation Boards" will apply.

The attention of offerors is particularly directed to NFS 1815.305, "Proposal evaluation" and to NFS 1815.305-70, "Identification of unacceptable proposals".

A trade-off process, as described at FAR 15.101-1, will be used in making source selection.

**2. Evaluation Factors and Subfactors**

The evaluation factors are Mission Suitability, Cost, and Past Performance. These factors, as described at NFS 1815.304-70, will be used to evaluate each proposal. This Section M provides a further description for each evaluation factor, inclusive of subfactor. Only the Mission Suitability factor is numerically scored.

**3. Relative Order of Importance of Evaluation Factors**

The Cost Factor is significantly less important than the combined importance of the Mission Suitability Factor and the Past Performance Factor. As individual Factors, the Cost Factor is less important than the Mission Suitability Factor but more important than the Past Performance Factor.

(End of provision)

**M.4 GSFC 52.215-310 Mission Suitability Factor (MAY 2014)**

The Mission Suitability evaluation will take into consideration whether the resources proposed are consistent with the proposed efforts and accomplishments associated with each subfactor or whether they are overstated or understated for the effort to be accomplished as described by the Offeror and evaluated by NASA. The offeror's justification for the proposed resources will be considered in this evaluation. If the Offeror's proposal demonstrates a lack of resource realism, it will be evaluated as demonstrating a lack of understanding of or commitment to the requirements and may significantly affect the offeror's Mission Suitability evaluation.

## SECTION M OF NNG14490137R EVALUATION FACTORS FOR AWARD

The Government may choose to incorporate any positive aspects of an offeror's approach to meeting/exceeding contract requirements into the final contract, particularly if any positive proposal area results in Strength or Significant Strength findings in the Mission Suitability evaluation. An offeror's proposed Mission Suitability approach shall be consistent with its proposed cost/price information.

### **1. Mission Suitability Subfactors and Description of Each Subfactor**

#### **Subfactor A – Management Approach**

The Offeror's brief description of how it will provide sustaining engineering, supply chain management, and logistics support for Installation Accountable Government Property (IAGP) in accordance with relevant portions of SOW Section 2.1.1.6 requirements (acquire, receive, inspect, test, and accept into inventory all new program equipment, hardware, materials, and supplies, as well as operation, maintenance, and sustaining engineering plans for the fabrication shops, testing and qualification facilities, explosives storage facilities, and ground support equipment [including launchers]) will be evaluated for effectiveness and efficiency in ensuring all property is fully operational and available to meet Mission and DRPA requirements, for compliance with the relevant requirements of Section 2.1.1.6 of the SOW, and for consistency with the NSRP risk posture as described in Section 1.0 of the SOW.

The Offeror's detailed narrative that includes specific examples describing its process for procuring and in-processing a commercially available telemetry transmitter and describing its process for fabricating, assembling, and acceptance testing an in-house parachute recovery system (some components of which may be commercially available, but which shall be assumed to already be in inventory for the purpose of the example scenario) will be evaluated for effectiveness and efficiency in ensuring compliance with relevant requirements of Section 2.1.1.6 of the SOW, and for consistency with the NSRP risk posture as described in Section 1.0 of the SOW.

The Offeror's detailed narrative describing how it will balance fluctuating workloads to meet varying mission, campaign, and DRPA requirements, in particular: (i) its approach for managing the entire workforce to concurrently execute the Mission and DRPA Models included in the SOW; (ii) how it will manage all aspects of implementing the mission set while also managing multiple DRPA projects of varying types and complexities, while giving appropriate attention and priority to missions; (iii) how it will distribute and prioritize work among individuals within major groups or departments and how it will mitigate personnel conflicts; (iv) how it provide extraordinary expertise or technical capabilities when required by the Program; and (v) how it will satisfy varying skill mix requirements, will be evaluated on reasonableness of workload on individuals within major groups or departments and efficiency in executing the entirety of the work while giving proper attention and priority to missions as well as its ability to preserve and enhance programmatic capabilities and performance, on its ability to respond to varying workload and skill mix requirements in a rapid and efficient manner without negatively impacting existing work, and on any impacts the proposed approach may have on the workforce's morale, productivity, and commitment to the program.

The Offeror's schedule templates developed in accordance with SOW Sections 2.2.1 through 2.2.5 for each of the four (4) mission complexity levels defined in SOW Section 2.2.1 will be evaluated on how well each schedule template identifies the appropriate level of detail in terms of mission phases, sub-phases, and milestones. Each template will also be evaluated on how well it allocates the appropriate amount of time for each phase or between milestones.

The Offeror's overall coordinated schedule for all missions listed in the Mission Model for the Base Period of the Contract (first two years), identifying potential conflicts for resources and specifying how they will be resolved, will be evaluated for its clarity, completeness, feasibility, effective use of available schedule time and resources, and for its identification and resolution of potential conflicts.

The Offeror's description of its overall approach to individual mission staffing for each of the four (4) mission complexity levels and its general time-phased staffing by mission phase in accordance with SOW Sections 2.2.1 through 2.2.5 for each mission complexity level that includes appropriate skill mixes and the

## SECTION M OF NNG14490137R EVALUATION FACTORS FOR AWARD

amount of time it is anticipated that assigned mission team technical staff will devote to each phase of the mission, will be evaluated on its efficient and effective use of personnel, the appropriateness of individual personnel mission specific responsibilities, and staffing flexibility to meet changing mission and manifest requirements, and the proposed time-phased staffing by mission phase will be evaluated on how well the defined skill mix and time-phased staffing over the life of the mission reflect the Offeror's understanding of SOW Sections 2.2.1 through 2.2.5 requirements necessary to successfully complete sounding rocket missions.

The mission team assignments (i) reflecting the Offeror's approach to meeting the requirements of Sections 2.1.2.5 through 2.1.2.9 of the SOW; (ii) limited to mission team technical staff specifically assigned to the mission and address their individual responsibilities; and (iii) including all engineering and technical staff directly assigned as team members to a specific mission, but not including any management, administrative, or support staff such as those involved in the ongoing operations of fabrication facilities and technical laboratories, will be evaluated for efficient and effective use of personnel, the appropriateness of individual personnel mission specific responsibilities, and staffing flexibility to meet changing mission and manifest requirements. Individual mission staffing will be evaluated for consistency with the labor categories, hours, and position descriptions for each labor category as proposed by the Offeror in the Cost Volume.

The Offeror's narrative addressing SOW Section 2.1.2.8 describing its risk management approach for individual missions including how individual mission risks will be identified, evaluated, and tracked through closure will be evaluated for its clarity, completeness, effectiveness, and efficiency.

The Offeror's proposed risk management process compatible and consistent with the risk posture of the Sounding Rockets Program as defined in Section 1.0 of the SOW, and the Sounding Rocket Program Risk Management Plan (810-RMP-0001) will be evaluated on the extent to which it is compatible and consistent with the NSRP risk posture as described in Section 1.0 of the SOW and the Sounding Rocket Program Risk Management Plan (810-RMP-0001), and for the appropriateness of the level of insight it provides the Government regarding the risks associated with individual missions.

The Offeror's detailed description of its implementation approach in accordance with SOW Sections 2.3, Table 6, for DRPA projects R13 and N12, including the engineering studies, analyses, design efforts, fabrication efforts, testing protocol and operational protocol, will be evaluated for its clarity, completeness, feasibility, effective use of available resources, and its adequacy in identifying and evaluating all critical issues and potential problems, and its effectiveness in meeting each DRPA requirement.

The Offeror's schedule template and staffing plan for DRPA projects R13 and N12, including: (i) a general time-phased staffing, with labor categories, consistent with the proposed schedule template; and (ii) team assignments reflecting the Offeror's approach to meeting the requirements of SOW Sections 2.1.2.5 through 2.1.2.9; and any rationale for deviation from what is consistent with the historical data, will be evaluated for efficient and effective use of personnel and the appropriateness of individual assigned responsibilities, and on how well the proposed labor categories over the life of the DRPA project reflect the Offeror's understanding of SOW Section 2.3 requirements.

The Offeror's proposed internal and external review process for DRPA projects R13 and N12, including how its review process will identify critical issues and problem areas, track and verify the appropriate disposition of identified problems and issues, and provide the Government with an appropriate level of insight into the process, will be evaluated for its effectiveness in (i) identifying critical issues and problem areas, (ii) tracking and verifying the appropriate disposition of identified problems and issues, and (iii) providing the Government with an appropriate level of project insight.

The Offeror's proposed approach to attract, cultivate, and maintain a highly qualified workforce at the beginning and throughout the life of the contract including recruiting methods and hiring, training, promotion, and firing policies, taking into consideration the challenges associated with the remote geographic location of Wallops and the extended periods of travel associated with implementing launch

## SECTION M OF NNG14490137R EVALUATION FACTORS FOR AWARD

operations at remote locations worldwide will be evaluated for its reasonableness, likelihood of success, efficiency, associated risk, and consistency with other parts of the proposal.

The Offeror's descriptions of positions considered critical to meet the requirements of the contract, including the rationale for identifying these positions as critical, the written position qualifications for these critical positions, the minimum requirements in the position qualifications, including the necessary experience, summary of duties and responsibilities, specific requirements/licensing, minimum education and minimum experience required for the position, and the position title and to whom the position reports will be evaluated on the appropriateness of duties and responsibilities assigned to each position and their ability to accomplish contract requirements.

The Offeror's proposed phase-in plan will be evaluated for its efficiency, effectiveness, and completeness of detail in: (i) describing how its approach will ensure continuity and smooth transition with the incumbent Contractor during the 60-day phase-in period; (ii) demonstrating its ability to assume full contract responsibility on the effective date of the contract; (iii) addressing how ongoing work will be maintained, the proposed management organization, schedule, orientation and training of personnel, including personnel who may be in the field supporting operations during phase-in and the start of the NSROC III contract; (iv) describing how the security challenges associated with International Traffic in Arms Regulations (ITAR) 22 C.F.R. Chapter I, Subchapter M Parts 120-130 requirements and the requirements for HSPD-12 facility personnel access and personnel security clearance processes will be prepared for during phase-in so as to prevent work interruptions on the contract effective date; (v) identifying any dependencies upon the incumbent contractor; and (vi) specifying the extent of involvement of NASA personnel during this period.

The Offeror's Total Compensation Plan for all positions proposed will be evaluated in accordance with the provisions of FAR 52.222-46, Evaluation of Compensation of Professional Employees and NFS 1852.231-72, Determination of Compensation Reasonableness. The proposed Total Compensation Plan will also be evaluated for reasonableness and effectiveness.

The Government will evaluate the adequacy of the Offeror's Safety and Health Plan to ensure that supplies and services are furnished in a safe and healthful manner, and that the Offeror develops, produces, and/or delivers products to NASA that will be safe and successful for their intended use.

The Offeror's Safety and Health Plan will be evaluated for compliance with applicable Federal and State statutory and regulatory requirements, as well as compliance with NPR 8715.3, NFS 1852.223-73 and applicable NASA Agency-wide and Installation specific policies and/or procedures including the adequacy of protection of life, health, and well being of NASA and Contractor employees, property and equipment. Further, the Safety and Health Plan will be evaluated to determine the adequacy of protection for subcontractor employees for any proposed subcontract.

The Offeror's plan for handling hazardous materials identified in the Section I, "Hazardous Material Identification and Material Safety Data" (FAR 52.223-3—ALTERNATE I) clause will be evaluated for responsiveness and compliance.

### Subfactor B – Technical Approach

The Offeror's proposed solutions for each of the top Program technical challenges as defined in Enclosure 1, which include (i) maintaining Program progress in launching missions in the event that heritage propulsion systems exhibit major technical performance anomalies, (ii) developing a common flight termination ordnance package for multiple sustainer and exo-atmospheric motors to be utilized at multiple launch sites, and (iii) providing the appropriate level of oversight and insight into the design, analysis, and testing of science instruments, will be evaluated for the feasibility and comprehensiveness of its described technical approach including the rationale and justification for how the proposed solutions will maintain or enhance the Program's ability to meet customer requirements and the requirements of the mission model (Attachment A, SOW Table 3) consistent with the NSRP risk posture and low cost access to space (LCAS) approach as described in Section 1.0 of the SOW.

## SECTION M OF NNG14490137R EVALUATION FACTORS FOR AWARD

The Offeror's proposed general approach for addressing each of the the top areas for Program innovation as defined in Enclosure 4 by: (i) describing its process for defining requirements, conducting research, performing engineering studies, conducting qualification efforts, and implementation in each of the innovation areas; (ii) specifically describing the types of hardware, software, or operational aspects of its approach in the context of how the innovation will help enhance its ability to meet mission requirements; and (iii) providing a cost benefit analysis for innovations as well as a description of whether the innovation will be implemented in house or via an outside vendor, will be evaluated for their feasibility (including demonstrated ability for implementation), the validity of supporting rationale, the timeliness and cost-effectiveness of any resultant benefits, and how those new or innovative approaches will: (i) improve the current operations approach; (ii) enable efficiencies; (iii) enhance the ability to complete the functional requirements of SOW Sections 2.2.1 thru 2.2.5; and (iv) increase overall scientific return while maintaining consistency with the NSRP risk posture and low cost access to space (LCAS) approach as described in Section 1.0 of the SOW.

### Subfactor C – SMALL BUSINESS UTILIZATION (SBU)

The evaluation of Small Business Subcontracting Plan, as required by FAR clause 52.219-9 (Deviation)--Alternate II, "Small Business Subcontracting Plan," applies to all Offerors, except small businesses. The evaluation of Commitment to Small Business Program applies to all Offerors.

#### (a) Small Business Subcontracting

(1) The Small Business Subcontracting Plan will be evaluated in terms of the Offeror's proposed subcontracting goals (overall subcontracting goals and individual subcontracting goals by category) in comparison to the Contracting Officers assessment of the appropriate subcontracting goals for this procurement. The Offeror's Small Business Subcontracting Plan will also be evaluated in terms of meeting the requirements of FAR 19.704 Subcontracting Plan Requirements. NASA will consider the amount of work being retained for performance by the prime contractor in-house when determining whether a subcontracting plan is acceptable. The evaluation of the Small Business Subcontracting Plan will be on the basis of the TOTAL CONTRACT VALUE (basic and all options combined).

(2) For purposes of small business that are not required to submit subcontracting plans, NASA will evaluate the amount of work proposed to be done by a small business either at the prime level or at the first tier subcontract level. The proposed amount of work to be done by the prime small business and first tier small business subcontractors will be evaluated against the Contracting Officer's assessment of the overall subcontracting goal for this procurement. Individual subcontracting goals by small business categories will not be evaluated for small business primes and their first tier subcontractors.

#### (b) Commitment to Small Businesses

(1) NASA will evaluate the extent to which the work performed by a small business subcontractor(s) is defined as "high technology". NASA also will evaluate the extent of commitment to use the subcontractor(s) (enforceable vs. non-enforceable commitments).

(2) NASA will evaluate the extent to which the identity of the small business subcontractor is specified in the proposal as well as the extent of the commitment to use small businesses. (For small business Offerors, NASA will evaluate this only if there subcontracting opportunities exist.)

(3) NASA will evaluate the Offeror's established or planned procedures and organizational structure for SDB outreach, assistance, counseling, market research and SDB identification, and relevant purchasing procedures. (For large businesses Offerors, this information should conform to its submitted Small Business Subcontracting Plan. For small business Offerors, NASA will evaluate this only if subcontracting opportunities exist.)

SECTION M OF NNG14490137R  
EVALUATION FACTORS FOR AWARD

(4) NASA will evaluate the Offeror's participation and/or proposed participation in the Mentor Protégé program and their planned commitment to enter into mentor-protégé agreements to provide appropriate developmental assistance to enhance the protégé's ability to perform successfully under contracts and/or subcontracts.

**2. Evaluation Findings**

The Government will evaluate proposals by classifying findings as strengths, weaknesses, significant strengths, significant weaknesses, or deficiencies using the following:

Weakness – a flaw in the proposal that increases the risk of unsuccessful contract performance

Significant Weakness – a proposal flaw that appreciably increases the risk of unsuccessful contract performance

Deficiency – a material failure of a proposal to meet a Government requirement or a combination of significant weaknesses in a proposal that increases the risk of unsuccessful contract performance to an unacceptable level

Strength (not in FAR/NFS) – a proposal area that enhances the potential for successful performance or contributes toward exceeding the contract requirements in a manner that provides additional value to the government (this could be associated with a process, technical approach, materials, facilities, etc.).

Significant Strength (not in FAR/NFS) – a proposal area that greatly enhances the potential for successful performance or contributes significantly toward exceeding the contract requirements in a manner that provides additional value to the government.

**3. Weights and Scoring**

In accordance with NFS 1815.304-70(b)(1), the Mission Suitability factor will be weighted and scored on a 1000 point scale.

The weights (points) associated with each Mission Suitability subfactor are as follows:

Subfactor	Description	Points
A	Management Approach	600
B	Technical Approach	300
C	Small Business Utilization	100

The Mission Suitability subfactors will be evaluated using the adjectival rating, definitions, and percentile ranges at NFS 1815.305(a)(3)(A). The maximum points available for each subfactor will be multiplied by the assessed percent for each subfactor to derive the score for the particular subfactor. For example, if a subfactor has possible 200 points and receives a percent rating 80, then the score for that subfactor would be 160 points.

(End of provision)

**M.5 GSFC 52.215-321 Cost Evaluation Factor (JUN 2014)**

The proposed costs will be assessed to determine reasonableness and cost realism. The evaluation will be conducted in accordance with FAR 15.305(a)(1) and NFS 1815.305(a)(1)(B).

Offerors should refer to FAR 2.101(b) for a definition of "cost realism" and to FAR 15.404-1(d) for a discussion of "cost realism analysis" and "probable cost".

SECTION M OF NNG14490137R  
EVALUATION FACTORS FOR AWARD

Both the "proposed and probable cost" will reflect the Offeror's proposed fee amount. Proposed fee will be corrected to resolve mathematical errors, if any. Proposed fee will not be adjusted as a result of any cost realism adjustments to establish the probable cost.

Both the proposed and probable cost assessment (inclusive of all options) will be presented to the Source Selection Authority, along with the proposed FFP Phase-in price.

(End of provision)

**M.6 GSFC 52.215-330 Past Performance Evaluation Factor (JUN 2014)**

An offeror's past performance will be evaluated based on FAR Part 15 and the evaluation criteria in this provision. All past performance references must meet the "recent" and minimum average annual cost/fee expenditures criteria provided below for both prime contractor references and significant subcontractor references in order to be evaluated.

For purposes of past performance, the term "Offeror" refers to a prime contractor and its significant subcontractors. Accordingly, the past performance of significant(s) subcontractors shall also be evaluated and attributed to the Offeror. The past performance of a significant subcontractor will be compared to the work proposed to be performed by that subcontractor, and weighted accordingly in assigning the overall past performance adjectival rating to the Offeror. The past performance of the prime contractor will be weighted more heavily than any significant subcontractor or combination of significant subcontractors in the overall past performance evaluation.

A "recent" contract is a contract that is ongoing or completed less than 5 years prior to the issuance of this RFP. Contracts completed more than 5 years prior to issuance of this RFP will not be considered recent and will not be considered or evaluated.

A "relevant" contract depends on the size and content of the contract with respect to this acquisition.

For a prime contractor's contract reference(s) to be considered at least minimally "relevant", it must meet/exceed an average annual cost/fee incurred of at least \$10M.

A proposed significant subcontractor for this procurement is defined as any proposed subcontractor that is estimated to meet/exceed an average annual cost/fee of \$2M. *Note, the definition of significant subcontractor for the past performance evaluation may be different than for the cost evaluation.*

For a significant subcontractor's contract reference(s) to be considered at least minimally "relevant", it must meet/exceed an average annual cost/fee incurred of at least 25% of that portion of this procurement that the subcontractor is proposed (or estimated) to perform.

If the contract is deemed recent and meets the above minimum average annual cost/fee expenditures criteria, the Government will then determine the degree of relevance - ie., level of pertinence - of the contract based on size and content. Content is more important than size in the evaluation of relevance. The term "content" means the type and complexity of services, work, or supplies, in comparison to the requirements of this solicitation. The Government may consider past quantities and periods of performance in evaluating overall relevance.

The performance evaluation will be based primarily on customer satisfaction and/or contract data in meeting technical, schedule, cost, and management requirements. Additional performance factors may include contract administration, occupational health, safety, security, subcontracting plan goals and small disadvantaged business participation targets, if applicable, and other contract requirements.

The Government may review and consider past performance information on other contracts that it is aware of or that are made available from other sources and inquiries with previous customers. These contracts (if

any) must meet the above “recent” and minimum average annual cost/fee expenditures criteria to be evaluated.

As part of the past performance evaluation, the Government may attribute the experience or past performance of a parent or affiliated or predecessor company (including Joint Venture prime partner companies and/or a parent or affiliated company that is being otherwise proposed as a subcontractor on this effort) to the proposed prime contractor and/or significant subcontractor(s) where the proposal demonstrates that the resources of the parent or affiliate or predecessor company will affect the performance of the proposed prime contractor and/or significant subcontractor(s). The Government will take into consideration whether the resources of the parent or affiliate or predecessor company (its workforce, management, facilities or other resources) will be provided or relied upon for contract performance such that the parent or affiliate will have meaningful involvement in contract performance. These contracts (if any) must meet the above “recent” and minimum average annual cost/fee expenditures criteria to be evaluated.

An Offeror shall not be rated favorably or unfavorably if the offeror does not have a record of “recent” and “relevant” past performance or if a record of past performance is unavailable. In such cases the offeror will receive a “Neutral” rating. However, an offeror with favorable, recent, and relevant past performance that meets the minimum average annual cost/fee expenditures indicated above may be considered more favorably than an offeror with no relevant past performance information.

The Government will consider an Offeror’s explanation of any problems encountered on any identified contracts, and any corrective actions taken by the offeror.

The overall confidence rating assigned to an Offeror’s Past Performance (see below) will reflect a subjective evaluation of the information contained in the oral presentation, if applicable; written narrative; past performance evaluation input provided through customer questionnaires; and other references, if any, that the Government may contact for additional past performance information.

Past Performance Ratings – The level of confidence ratings set forth below will be used to evaluate the Past Performance factor for each Offeror.

Each of the adjective ratings below has a “performance” component and a “relevance” component as discussed above. As used in the ratings below, the term “pertinent” is equivalent to the term “relevant.” The following adjectival rating guidelines will be used when subjectively assessing both components.

### Very High Level of Confidence

The Offeror’s relevant past performance is of exceptional merit and is very highly pertinent to this acquisition; indicating exemplary performance in a timely, efficient, and economical manner; very minor (if any) problems with no adverse effect on overall performance. Based on the Offeror’s performance record, there is a very high level of confidence that the Offeror will successfully perform the required effort.

### High Level of Confidence

The Offeror’s relevant past performance is highly pertinent to this acquisition; demonstrating very effective performance that would be fully responsive to contract requirements with contract requirements accomplished in a timely, efficient, and economical manner for the most part with only minor problems with little identifiable effect on overall performance. Based on the Offeror’s performance record, there is a high level of confidence that the Offeror will successfully perform the required effort.
